Provides for digital transaction providers

Proposed law allows the commissioner to enter into an agreement with public or private persons or agencies to be digital transaction providers who can provide and renew digital credentials and provides a contract can be denied if the person or organization has violated any rule or regulation of the office of motor vehicles. Proposed law provides that digital transaction providers may collect registration license taxes and fees and may collect a convenience charge as provided in present law. Proposed law provides that the digital transaction provider must execute a surety bond of \$100,000 naming the Dept. of Public Safety and Corrections, office of motor vehicles, as obligee. Further provides the surety bond must be delivered to the Dept. of Public Safety and Corrections, office of motor vehicles. Proposed law requires the digital transaction provider to acquire a cyber liability insurance policy for \$1,000,000 that names the state of La., the Dept. of Public Safety and Corrections, office of motor vehicles, department employees, and the office of technology services and its employees as additional insureds.

**EXPENDITURE EXPLANATION**

Proposed law is permissive in nature and will not create a material expenditure impact. The state of Louisiana currently has a contract with a third-party application developer to deliver an electronic credential for driver's licenses and official identification cards issued by the OMV. Expenditures to further develop an interface a third-party might require is factored into the ongoing IT modernization project. OTS reports that most of the functionality currently exists in the legacy application.

**REVENUE EXPLANATION**

There is no anticipated direct material effect on governmental revenues as a result of this measure.
