HB 421 Engrossed

2024 Regular Session

Phelps

Abstract: Directs a healthcare provider to document a preexisting sickle cell disease diagnosis on a patient's immunization record.

Present law requires the Louisiana Department of Health to maintain a record of all immunizations an individual receives.

Proposed law provides a location for healthcare providers to designate a sickle cell disease diagnosis after obtaining the consent of the patient or, if the patient is a minor, the consent of the patient's parent or guardian.
