EXPENDITURE EXPLANATION

However, there is no requirement in the bill to use the new match source (non-Federal share) for Medicaid base rate increases, supplemental payments, or other payments.

REVENUE EXPLANATION

The amount of hospital assessment revenues that will be generated by the parish and transferred to LDH annually is indeterminable. Each participating parish has the discretion to participate (opt-out provision), and to determine the amount of the assessments per hospital within the parish. The amount of tax that can be assessed is limited to no more than 6% of the aggregate net patient revenue of all hospitals taxed by the state with a similar purpose (including any other hospital assessments).
