<b>Subject:</b> Penalties for Battery of a Bus Operator		<b>Analyst:</b> Daniel Druilhet

CRIMINAL/PENALTIES EG SEE FISC NOTE GF EX Page 1 of 1  
 Provides relative to the penalties for battery of a bus operator

Current law provides that battery of a bus operator is battery committed without the consent of the victim when the offender has reasonable grounds to believe the victim is a bus operator; mandates a fine of not more than \$500 and imprisonment for not less than 48 hours nor more than six months without benefit of parole, probation, or suspension of sentence for conviction of battery of a bus operator. Proposed law amends current law by increasing the mandated fine (from no more than \$500 to no more than \$1,000) and range of sentencing for conviction (to not less than 72 hours nor more than 1 year, with or without hard labor, without benefit of probation, parole, or suspension of sentence) of battery of a bus operator while the operator is operating a bus.

**EXPENDITURE EXPLANATION**

Proposed law may result in an indeterminable increase in SGF expenditures in the Department of Public Safety & Corrections - Corrections Services, if a person is convicted of battery of a bus operator while the operator is operating a bus. Proposed law is a relative felony, and any impact on either state or local expenditures is contingent on whether offenders sustain either a misdemeanor or felony-grade convictions for its violation. The exact fiscal impact of the passage of this legislation to state or local governing authorities is indeterminable, since it is not known how many people will be convicted, the number of felony or misdemeanor convictions for violation of the proposed law that will occur, nor the length of the sentences assessed as a result of its potential enactment.

To the extent that offenders sustain a felony-grade conviction for violation of the proposed law, DPS&C-CS will sustain an indeterminable increase in expenditures at the local level. DPS&C-CS advises that impacts on offender populations are anticipated to impact the number of offenders held in local facilities, and that in managing its offender population, it seeks to fill all beds in state facilities first, then assigns overflow offenders to local facilities. For those convicted, sentenced, and then subsequently housed in a local facility, DPS&C-CS will sustain expenditures of \$26.39 per offender per day. For those housed in state facilities, DPS&C-CS will sustain expenditures of \$107.60 per offender per day.

To the extent that offenders sustain a misdemeanor conviction for violation of the proposed law, local governing authorities will sustain Local Funds expenditures. The exact fiscal impact of the passage of this legislation to local governing authorities is indeterminable, since it is not known how many people will be convicted and incarcerated in local facilities, nor the length of the sentences assessed with those convictions as a result of its potential enactment. The maximum imprisonment term is no more than one (1) year at the local level.

**REVENUE EXPLANATION**

Proposed law may result in an indeterminable increase in local revenues as a result of convictions of battery of a bus operator while the operator is operating a bus. The exact fiscal impact of the passage of this legislation on local revenue is indeterminable because the fines imposed on those convicted are optional, and the amount of the fines may vary. The potential revenue will accrue to the local governing authority.
