Provides relative to court proceedings to be conducted via remote technology

Proposed law provides that in any civil proceeding that does not require witness testimony or the introduction of evidence, a party may provide written notice to the court at least ten days prior to the scheduled hearing date that he will appear remotely. Provided the court has the requisite technology, the court shall allow the party to appear by audio-visual means, unless the court provides written reasons declining the remote appearance for good cause. Proposed law requires the court to ensure the technology enables all parties to fully participate, require that a remote appearance abide by any necessary privacy and security requirements, and have a process for a party, court reporter, or other court personnel to alert of any technology or audibility issues arising during a remote proceeding.

Proposed law gives parties in court proceedings the right to appear remotely upon giving notice; however, the court may require the party to appear in person if the court does not have the requisite technology or provides written reasons declining the remote appearance for good cause.
