EXPENDITURE EXPLANATION

This measure will result in an expenditure increase in the Office of Risk Management, in which survivor benefits would be payable in the event of death for any firefighter who is a Louisiana resident and is employed by or under the control of one of the following federal agencies: 1) Department of Defense, 2) Department of Agriculture, 3) Department of Veterans Affairs, 4) Department of Interior, and 5) Federal Emergency Management Administration. This measure expands the eligibility of firemen to receive the \$250,000 survivor benefits allocated to the surviving spouse, child, or other beneficiary of a fireman who suffers death as a result of an injury arising out of any activity in his capacity as a fireman in the protection of life and property in Louisiana.

The Office of Risk Management (ORM) anticipates an expenditure increase of at least \$250,000 in FY 25 for one (1) survivor benefit. ORM is unable to determine how often a future benefit will be payable annually as a result of this measure, so the cost is anticipated to increase but is indeterminable for the years thereafter. Pursuant to R.S. 39:1533(A)(2), ORM receives a specific General Fund appropriation to pay such benefits on behalf of the Law Enforcement Officers and Fireman’s Survivor Benefit Review Board. The provisions of this proposed law will be applied retroactively to August 1, 2023.

REVENUE EXPLANATION

There is no anticipated direct material effect on governmental revenues as a result of this measure.
