

## RÉSUMÉ DIGEST

ACT 348 (SB 411)

2024 Regular Session

Kleinpeter

New law is known as "Willy's Law".

Existing law provides for the making and revocation of anatomical gifts and provides definitions. New law adds definitions for "fishing license" and "hunting license".

Existing law provides methods for indicating anatomical gift authorization on driver's licenses and identification cards. New law adds indications for fishing and hunting licenses.

Existing law provides that invalidation of a driver's license or identification card does not invalidate an anatomical gift and requires the office of motor vehicles to cooperate with the donor registry in providing information relevant to anatomical gifts.

New law retains existing law and also requires that Dept. of Wildlife and Fisheries (LDWF) cooperate with the registry.

New law requires that LDWF provide information on anatomical donations through its recreational licensing system and that applicants for recreational fishing and hunting licenses who are not registered donors be provided an opportunity to make a donation. Further requires that information on special wishes and limitations be provided to applicants.

New law provides that the applicant's response will be indicated on their fishing or hunting license. Further provides that the gift may be revoked as provided in existing law.

New law provides that the state is not liable for removal or use of anatomical gifts pursuant to new law. Further provides that physicians and medical facilities are not liable for removal, use, or failure to remove or use gifts pursuant to new law.

New law requires that donations be documented in accordance with existing law.

Effective August 1, 2024.

(Amends R.S. 17:2351(6), 2354(A)(1) and (C), and 2354.8(B); adds R.S. 17:2351(32) and (33) and R.S. 56:3000(K))
