EXPENDITURE EXPLANATION

The fiscal impact associated with suspending Prior Authorization (PA) requirements for Medicaid recipients undergoing cancer treatment during a declared state of emergency is indeterminable. The PA suspension shall only apply to Medicaid recipients undergoing cancer treatment within the designated emergency area.

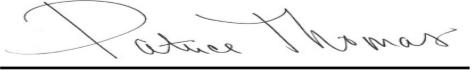

LDH states it has the authority and routinely suspends PA during declared emergencies. Based on historical experience, the department anticipates no significant measurable impact from suspending PA in certain disaster situations.

REVENUE EXPLANATION

There is no anticipated direct material effect on governmental revenues as a result of this measure.
