OFFICE OF LEGISLATIVE AUDITOR
2025 REGULAR SESSION
ACTUARIAL NOTE

House Bill 17 HLS 25RS-170	**Date: April 25, 2025**
Engrossed	**Organizations Affected: MPERS**
Author: Tarver	
LLA Note HB 17.02	**EG SEE ACTUARAL NOTE APV**

Bill Header: RETIREMENT/MUNICIPAL POL: Provides relative to the deferred retirement option plan of the Municipal Police Employees' Retirement System

Purpose of Bill: Bill Purpose: Members who entered DROP prior to July 1, 2024 were only able to elect a maximum DROP period of 3 years. Proposed law permits these members to extend their existing DROP period up to a total of 5 years, the maximum allowed by law beginning July 1, 2024.

I. ACTUARIAL IMPACT ON RETIREMENT SYSTEMS

This section of the actuarial note is intended to provide a brief outline of the changes in plan provisions and actuarial effect on key aspects of the affected retirement systems.

If we assume that members elect the most financially optimal choice, we would expect permitting existing DROP participants to increase their maximum period from 3 to 5 to increase costs. However, because members may remain employed post-DROP, extending the DROP period can increase costs in some situations and decrease costs in others. Experience has illustrated that people do not necessarily make the optimal decision from a financial standpoint so it is likely that this change will have a minimal impact.

II. FISCAL IMPACT ON RETIREMENT SYSTEMS

This section of the actuarial note pertains to annual fiscal costs (savings) associated with the retirement systems.

Extending the maximum DRIOP period from 3 to 5 years for existing DROP members is expected to impact both the timing and amount of benefit payments for some members. For example, members who would otherwise have retired upon exiting DROP at the end of the current 3-year period would receive a lump sum payment and begin monthly payments. Some of these individuals may now elect to continue in DROP for an additional two years, shifting the timing and amount of the lump sum payment later. Further, someone who is already expected to work for an additional 2 years post-DROP (i.e. 3 years in DROP and 2 years post-DROP for a total of 5 years) may also elect to continue in DROP for the remainder of that period. This results in a larger lump sum payment occurring at actual retirement, but a smaller ongoing annual benefit. The ultimate impact of the shift in timing and amount of payments is not considered to be material.

III. FISCAL IMPACT ON LOCAL GOVERNMENT ENTITIES

This section of the actuarial note pertains to annual fiscal costs (savings) related to administrative expenditures and revenue impacts incurred by local government entities other than those included in Section II.

The proposed legislation is not expected to have any additional effects on fiscal administrative costs and revenues related to local government entities during the five-year measurement period, other than those outlined above.

IV. FISCAL IMPACT ON STATE GOVERNMENT ENTITIES
(Prepared by Legislative Fiscal Office)

This section of the actuarial note pertains to annual fiscal costs (savings) related to administrative expenditures and revenue impacts incurred by state government entities other than those included in Section II.

N/A - This bill only impacts local government, and therefore, has no state impact. The LFO does not review local government bills.

V. ACTUARIAL DISCLOSURES

Intended Use

This actuarial note is based on our understanding of the bill as of the date shown above. It is intended to be used by the legislature during the current legislative session only and assumes no other legislative changes affecting the funding or benefits of the affected systems, other than those identified, will be adopted. Other readers of this actuarial note are advised to seek professional guidance as to its content and interpretation, and not to rely upon this communication without such guidance. The actuarial note, and any referenced documents, should be read as a whole. Distribution of, or reliance on, only parts of this actuarial note could result in its misuse and may mislead others. The summary of the impact of the bill included in this actuarial note is for the purposes of an actuarial analysis only, as required by La. R.S. 24:521, and is not a legal interpretation of the provisions of the bill.

This Note has been prepared by the Actuary for the Louisiana Legislative Auditor (LLA) with assistance from either the Fiscal Notes staff of the Legislative Auditor or staff of the Legislative Fiscal Office (LFO). The attachment of this Note provides compliance with the requirements of R.S. 24:521 as amended by Act 353 of the 2016 Regular Session.	**Kenneth J. "Kenny" Herbold, ASA, EA, MAAA** **Director of Actuarial Services** **Louisiana Legislative Auditor**

Actuarial Data, Methods and Assumptions

Unless indicated otherwise, this actuarial note was prepared using actuarial data, methods, and assumptions as disclosed in the most recent actuarial valuation report adopted by the Public Retirement Systems' Actuarial Committee (PRSAC). The assumptions and methods are reasonable for the purpose of this analysis.

For certain calculations that may be presented herein, we have utilized commercially available valuation software and/or are relying on proprietary valuation models and related software developed by our actuarial contractor. We made a reasonable attempt to understand the intended purpose of, general operation of, major sensitivities and dependencies within, and key strengths and limitations of these models. In our professional judgment, the models have the capability to provide results that are consistent with the purposes of the analysis and have no material limitations or known weaknesses. Tests were performed to ensure that the model reasonably represents that which is intended to be modeled.

To the extent that this actuarial note relies on calculations performed by the retirement systems' actuaries, to the best of our knowledge, no material biases exist with respect to the data, methods or assumptions used to develop the analysis other than those specifically identified. We did not audit the information provided, but have reviewed the information for reasonableness and consistency with other information provided by or for the affected retirement systems.

Conflict of Interest

There is nothing in the proposed legislation that will compromise the signing actuary's ability to present an unbiased statement of actuarial opinion.

Risks Associated with Measuring Costs

This actuarial note is an actuarial communication, and is required to include certain disclosures in compliance with Actuarial Standards of Practice (ASOP) No. 51. Risk disclosures otherwise required by ASOP No. 51 do not apply to this actuarial note because the proposed bill does not significantly change the types or levels of risks of the retirement system.

Certification

Kenneth J. Herbold is an Associate of the Society of Actuaries (ASA), a Member of the American Academy of Actuaries (MAAA), and an Enrolled Actuary (EA) under the Employees Retirement Income Security Act of 1974. Mr. Herbold meets the US Qualification Standards necessary to render the actuarial opinion contained herein.

VI. LEGISLATIVE PROCEDURAL ITEMS

Information Pertaining to La. Const. Art. X, §29(F)

☒ This bill contains a retirement system benefit provision having an actuarial cost.

Some members of a retirement system could receive a larger benefit with the enactment of this bill than what they would have received without this bill.

Dual Referral Relative to Total Fiscal Costs or Total Cash Flows:

The information presented below is based on information contained in Sections II, III, and IV for the first three years following the 2025 Regular Session.

Senate

☐ 13.5.1 Applies to Senate or House Instruments
If an annual fiscal cost ≥ $100,000, then bill is dual referred to:
Dual Referral: Senate Finance

☐ 13.5.2 Applies to Senate or House Instruments
If an annual tax or fee change ≥ $500,000, then bill is dual referred to:
Dual Referral: Revenue and Fiscal Affairs

House

☐ 6.8F Applies to Senate or House Instruments
If an annual General Fund fiscal cost ≥ $100,000, then bill is dual referred to:
Dual Referral: Appropriations

☐ 6.8G Applies to Senate Instruments only
If a net fee decrease occurs or is an increase in annual fees and taxes ≥ $500,000, then bill is dual referred to:
Dual Referral: Ways and Means
