

2025 Regular Session

HOUSE CONCURRENT RESOLUTION NO. 45

BY REPRESENTATIVE BOURRIAQUE

TRANSPORTATION: Authorizes and directs the Louisiana Department of Transportation and Development, through its office of transformation, to evaluate district alignments, maintenance facilities, and laboratory operations, including the establishment of a district construction engineer role, while ensuring continued project delivery during the transition

1 A CONCURRENT RESOLUTION

2 To authorize and direct the Louisiana Department of Transportation and Development,
3 through the office of transformation and in collaboration with deputy directors, to
4 conduct a thorough evaluation and provide recommendations on district alignments,
5 maintenance facilities, and laboratory operations to consider establishing a district
6 construction engineer role reporting to the district administrator to strengthen project
7 oversight; to direct the office of transformation to focus on facilitating continued
8 project delivery during the transition period; and to express support for
9 organizational and operational reforms necessary to ensure the effective and timely
10 delivery of infrastructure projects.

WHEREAS, the Louisiana Department of Transportation and Development (DOTD) plays a critical role in the construction, maintenance, and delivery of transportation infrastructure and services across the state; and

14 WHEREAS, the office of transformation, together with the DOTD, is tasked with
15 implementing a significant and complex package of reforms aimed at modernizing
16 departmental operations and improving project delivery; and

1 WHEREAS, the purpose of the office of transformation, within the DOTD, is to
2 modernize operations, implement data-driven improvements, and streamline organizational
3 functions; and

4 WHEREAS, the DOTD currently operates through nine geographic districts, each
5 responsible for the oversight, maintenance, and execution of transportation infrastructure
6 projects in their region; and

7 WHEREAS, the DOTD also manages a network of maintenance facilities and
8 laboratory operations essential to project delivery and public safety; and

9 WHEREAS, the DOTD currently relies on a single statewide bridge maintenance
10 crew to address critical structural repairs and preservation needs across Louisiana, yet the
11 scale and urgency of statewide infrastructure demands exceed the capacity of a single crew,
12 creating gaps in timely response, maintenance coverage, and long-term asset preservation;
13 and

14 WHEREAS, the uninterrupted delivery of infrastructure projects is critical to public
15 trust, workforce continuity, and economic development during a period of internal reform;
16 and

17 WHEREAS, the establishment of a district construction engineer position would
18 provide dedicated oversight of construction quality, project scheduling, contract compliance,
19 and coordination with the department's central office, thereby ensuring alignment with
20 statewide priorities; and

21 WHEREAS, the reform to end state taxation on construction projects funded by the
22 Transportation Trust Fund represents a positive step toward maximizing available funding
23 for infrastructure investment; and

24 WHEREAS, a menu of additional funding mechanisms linked to project delivery
25 goals includes: achieving a target percentage of a set letting goal for the fiscal year to unlock
26 supplemental funding for backlog reduction and achieving ninety-five percent progress for
27 projects in the program to similarly unlock additional resources.

28 THEREFORE, BE IT RESOLVED that the Legislature of Louisiana does hereby
29 authorize and direct the Department of Transportation and Development, through its office
30 of transformation and in collaboration with deputy directors, to conduct a thorough

1 evaluation and provide recommendations on project delivery improvements, district
2 alignments, statewide bridge maintenance crews, maintenance facilities, and laboratory
3 operations, and to report its findings to the Legislature.

4 BE IT FURTHER RESOLVED that the Department of Transportation and
5 Development shall submit a written report detailing its findings and recommendations to the
6 House and Senate Transportation committees prior to the 2026 Regular Session.

7 BE IT FURTHER RESOLVED that a copy of this Resolution be transmitted to the
8 secretary of the Department of Transportation and Development and the director of the
9 office of transformation.
