

## SENATE SUMMARY OF HOUSE AMENDMENTS

SB 71

2025 Regular Session

Foil

## KEYWORD AND SUMMARY AS RETURNED TO THE SENATE

FUNDS/FUNDING. Provides relative to the administration of the Louisiana Charter School Start-Up Loan Fund and expands the authorized uses of the fund. (gov sig)

## SUMMARY OF HOUSE AMENDMENTS TO THE SENATE BILL

1. Add requirement that rules adopted by the division of administration shall include processing procedures for loans and a loan application that includes a per pupil funding calculation.

## DIGEST OF THE SENATE BILL AS RETURNED TO THE SENATE

SB 71 Reengrossed

2025 Regular Session

Foil

Present law (R.S. 17:4001) establishes the Louisiana Charter School Start-Up Loan Fund, hereinafter referred to as the "fund", within the state treasury for the purposes of providing a source for funding no-interest loans to assist both existing and new Type 1, Type 2, or Type 3 charter schools with initial start-up funding and for funding the administrative and legal costs associated with the charter school program.

Proposed law renames the fund as the Louisiana Charter School Start-Up and Expansion Loan Fund and expands the authorized uses and purposes of the fund to provide a source for funding loans to assist eligible charter schools to expand existing operations and facilities or establish new operations and facilities with initial start-up funding, including funding for eligible costs associated with facility predevelopment, development, and associated financing activities.

Proposed law defines an "eligible charter school" as an existing or new Louisiana public charter school authorized by either a local school board or the State Board of Elementary and Secondary Education, hereinafter referred to as the "state board". An affiliated supporting organization as defined in Section 509(a)(3) of the Internal Revenue Code or a charter school's wholly-owned, nonprofit corporation real estate entity is eligible to apply for a loan or facilitate the use of a loan for the benefit of an eligible charter school.

Present law provides that monies in the fund are subject to appropriation by the legislature and shall be appropriated to the state board for allocation by the board as no-interest loans. Further requires all unexpended and unencumbered monies remaining in the fund at the end of each fiscal year to remain in the fund and that the monies be invested by the state treasurer in accordance with state law.

Proposed law instead requires that monies be appropriated to the division of administration, hereinafter referred to as the "division", removes the requirement that the loans be issued without interest, and otherwise retains present law.

Proposed law authorizes expenses incurred by the division in administering the fund to be reimbursable from the fund.

Present law requires the state board to administer the use of the monies appropriated from the fund and adopt rules in accordance with the APA.

Proposed law instead requires the division to administer the use of the monies appropriated from the fund and adopt rules, in consultation with the state board, in accordance with the APA.

Proposed law authorizes the division to enter in contracts and other agreements in connection with the operation of the fund.

Present law limits the uses of loan funding to purchase tangible items such as equipment, technology, instructional materials, and facility acquisition, upgrade, and repairs. Such equipment or other items shall become the property of the state if the loan is not fully repaid by virtue of the school ceasing to operate during the three years of automatic loan repayment.

Proposed law repeals present law.

Proposed law requires that rules adopted by the division include the following:

- (1) Charter school eligibility requirements.
- (2) Processing procedures for loans and a loan application that includes a per pupil funding calculation.
- (3) Security and collateral requirement provisions.
- (4) Terms of the loan agreement, including the manner of execution, repayment schedule, redemption features, the maximum principal amount of the obligation, the maximum interest rate to be incurred or borne by the obligation, the maximum repayment term of the loan which shall not exceed the term of the charter agreement, and default provisions.
- (5) Provisions defining eligible costs to include predevelopment costs of construction prior to construction, such as property or land acquisition, feasibility and site studies, design and engineering fees, legal costs, permitting, review, and inspection fees, surveys, utility assessments, financing costs and other eligible project costs as determined by the division.
- (6) Provisions defining development costs to include the costs of construction, labor and materials, site acquisition, construction administration, financing, equipment, demolition, infrastructure, required off-site improvements, and other related costs as determined by the division.
- (7) Provisions defining eligible renovations to include material additions and renovations to existing buildings, general environmental abatement, systems, code and life-safety upgrades, and other types of renovations as determined by the division.

Present law authorizes loans for Type 1, Type 2, and Type 3 charter schools not to exceed \$100,000 per loan.

Proposed law repeals present law.

Proposed law authorizes loans for eligible charter schools for the following purposes:

- (1) To pay for charter school start-up and early operating expenses.
- (2) To purchase tangible items such as equipment, technology, and instructional materials.
- (3) Land acquisition and facility predevelopment and development costs, including construction hard and soft costs.
- (4) Facility acquisition, upgrade, repairs, and other eligible renovations.
- (5) Any other purposes approved by the division of administration that are related to the start-up, operation, expansion, or renovation of an eligible charter school.

Proposed law requires an eligible charter school to comply with all of the following:

- (1) The eligible charter school shall demonstrate sufficient financial resources and a detailed financial strategy for repayment of the loan.

- (2) The eligible charter school shall complete and submit the supplemental reporting schedule as mandated in proposed law as part of its annual financial reporting to the legislative auditor.

Proposed law limits an eligible charter school to one loan from the fund, not to exceed \$5M per loan; however, once all of the principal, interest, and any other obligations due under the loan agreement are paid in full, the eligible charter school may apply for a new loan.

Proposed law prohibits loans from being made without the approval of the division. Further requires loans to be executed through a loan agreement between the division and the eligible charter school.

Proposed law requires loans to eligible charter schools to be repaid in accordance with the terms of the loan agreement as approved by the division and the rules adopted by the division. Further requires all interest and principal payments on loans to be repaid and deposited back into the fund and made available for additional loans.

Present law requires loan repayment to occur by having the state Dept. of Education automatically reduce the last state payment or payments for each charter school by 1/3 of the total loan amount during the initial three years of the loan term and instead deposit those funds in the Louisiana Charter School Start-up Loan Fund.

Proposed law instead authorizes the state Dept. of Education to reduce the last state payment or payments for each eligible charter school in accordance with the terms of the loan agreement.

Proposed law provides that if the charter agreement of any eligible charter school is revoked or the school ceases to operate during the term of the loan agreement and the loan is not fully repaid, all cash assets, equipment, property, facilities or other physical assets purchased or constructed with loan funds shall be transferred in accordance with the loan agreement and the rules adopted by the division.

Proposed law authorizes the state to, by suit, action, mandamus, or other proceedings, protect and enforce any rights to assets or security provided in connection with a loan agreement.

Proposed law requires the division to submit an annual report to the legislature, on or before December 31st, relative to fund activities for the prior fiscal year.

Present law (R.S. 24:514) requires certain auditees to furnish to the legislative auditor sworn annual financial statements.

Proposed law retains present law and further requires the annual financial statements of eligible charter schools receiving loans to be accompanied by a supplemental schedule developed by the legislative auditor.

Effective upon signature of the governor or lapse of time for gubernatorial action.

(Amends R.S. 17:4001 and R.S. 24:514(I))
