

RÉSUMÉ DIGEST

ACT 143 (HB 119)

2025 Regular Session

Deshotel

New law reduces the allowable percentage of light transmission through any sun blocking film or device on the front side windows of a motor vehicle.

Prior law required that a sun screening device used in conjunction with automotive safety glazing materials have a light transmission of at least 40% on front side windows.

New law changes the percentage of light transmission allowable for sun screening devices, including window tint, on the front side windows of a motor vehicle from 40% to 25%.

Effective August 1, 2025.

(Amends R.S. 32:361.1(C)(1))
