5 TITLE 23

6 LABOR AND ~~WORKER'S~~ WORKERS' COMPENSATION

7 CHAPTER 1. LOUISIANA WORKS

8 PART I. ESTABLISHMENT, POWERS, AND DUTIES

9 * * *

10 §1.1 Integrated case management; service integration of various workforce and
11 social service programs

12 A. The legislature recognizes that the department provides services to
13 support individuals with various needs and in various stages of life. However, the
14 conventional service delivery system of requiring individuals to access various
15 offices within the state and even within the department to address those multiple
16 needs creates barriers for the delivery of those services and entry into the workforce.
17 These needs can be better met, more efficiently and less costly, through integrated
18 case management at a single service location with a single case worker, even when
19 those services may be provided by multiple state agencies. It is the intent of the
20 legislature to provide a comprehensive, streamlined social services and workforce
21 delivery system that incorporates integrated case management models for customers
22 and their families served by multiple departments and programs.

23 B. For the purposes of this Section, the following terms have the meanings
24 ascribed to them:

25 (1) "Integrated case management" means an accessible, customer-centered
26 approach that coordinates the necessary services that meet the needs of each
27 individual or family which, if applicable, establishes a comprehensive, integrated
28 service plan that addresses all of those needs and outcomes, which is continually
29 monitored and updated as necessary.

1 (2) "Integrated service plan" means a plan that is based on the customer's
2 strengths, risks, service needs, and improvement plan.

3 (3) "Service integration" means a process by which a range of social,
4 education, and workforce employment and training services are delivered in a
5 coordinated and seamless manner to provide customer-oriented services, increase
6 early intervention and prevention opportunities, improve outcomes, and establish
7 provider accountability through performance measures. Service integration includes:

8 (a) A "One Door" business model which makes it easier for the customer to
9 obtain services and allows various programs to work seamlessly together across
10 multiple agencies.

11 (b) Cross training among the various program staff across multiple
12 governmental, nonprofit, and private sector agencies and organizations to ensure a
13 general understanding of all programs through which a comprehensive plan may be
14 developed for a customer to access.

15 (c) Flexible use of funding among the federal and state programs and, if
16 applicable, departments, agencies, and community programs, comprising a multi-
17 disciplinary team to ensure that the customer receives services for which he is
18 eligible.

19 * * *

20 §4. Divisions of the ~~commission~~ department

21 In addition to divisions, bureaus, boards, and commissions established within
22 the ~~commission~~ department by law, the secretary, with the approval of the governor,
23 may establish any division or bureau deemed advisable for the administration or
24 enforcement of any law with which he is charged. The secretary may combine or
25 consolidate the activities of two or more divisions or bureaus of the ~~commission~~
26 department, or provide for the establishment of any other when such action is
27 deemed advisable for the more efficient and economical administration of the work
28 and duties of the ~~commission~~ department.

Abstract: Provides relative to the continuous of technical corrections and revisions of provision of Title 23 of the La. Revised Statutes of 1950.

Proposed law provides legislative intent to provide a comprehensive, streamlined social services and workforce delivery system that incorporates integrated case management models for customers and their families served by multiple departments and programs.

Proposed law defines "integrated case management", "integrated service plan", and "service integration".

Present law provides that the provisions of present law are intended to maximize community participation in the administration and implementation of programs designed to develop employment opportunities for individuals with low income and to ameliorate the impact of the income level on their physical and mental well-being.

Proposed law instead provides that the provisions of present law are intended to assist local communities by working through a network of community action agencies to support employment in order to reduce poverty, revitalize low-income communities, and stabilize low-income families and individuals in rural and urban areas to become fully self-sufficient.

Present law provides that to accomplish this purpose, the legislature enacts present law for the purpose of establishing a procedure for the designation of community action agencies; fixing the responsibilities of community action agencies; defining community action programs; and establishing a formula for the allocation of community service block grant funds.

Proposed law retains present law.

Proposed law amends the definitions of "community action agency", "community action program", "low income", and "One Door".
