 Bill Text Version: **ENGROSSED**
 Opp. Chamb. Action:
 Proposed Amd.:
 Sub. Bill For.:

Date: March 22, 2026 3:42 PM	Author: FONTENOT
Dept./Agy.: Corrections, Sheriffs, and the Office of Juvenile Justice	
Subject: Unlawful Dissemination or Sale of Images Created by AI	Analyst: Daniel Druilhet

CRIME EG SEE FISC NOTE GF EX Page 1 of 1
 Provides relative to unlawful dissemination or sale of images of another created by artificial intelligence

Current law provides for the crimes of sexting and unlawful dissemination or sale of images of another created by artificial intelligence (AI); assesses a sentence of imprisonment of no more than 6 months, a fine of no more than \$750, or both, for those convicted; provides for disposition in accordance with the Children’s Code for those in violation. Proposed law increases the sentence of imprisonment for violation of current law from no less than six months to no more than one year, with or without hard labor, or a fine of no more than \$1,000, or both; assesses a sentence of no more than five years with or without hard labor (with at least one year being without benefit of probation, parole, or suspension of sentence) for violations of current law when the depicted person is a minor; prohibits possession of any video or still image created by AI that depicts another person under age 17 and is totally nude or undressed so as to expose genitals, pubic areas, buttocks, or female breasts, when the person possessing the content knows or has reason to know that the person is not licensed or authorized to possess such video or still image, and assesses a sentence of no more than five years imprisonment with or without hard labor (with at least one year being without benefit of probation, parole, or suspension of sentence); prohibits a person under age 17 from unlawfully disseminating, possessing, or selling images depicting another person created by AI and applicable dispositions.

EXPENDITURE EXPLANATION

Proposed law may result in an indeterminable increase in SGF expenditures in the Department of Public Safety & Corrections-Corrections Services (DPS&C-CS), to the extent that a person is convicted of possessing images or videos of another created by artificial intelligence that depicts another person who is totally nude or in a state of undress so as to expose the genitals, pubic area, buttocks, or female breasts, when the person possessing the video or still image knows or has reason to know that the person is not licensed or authorized to possess such video or still image. Proposed law increases the minimum sentence for those convicted of current law from six months to one year, and it has the effect of adding circumstances under which an offender can be convicted of unlawful possession, dissemination, or sale of images of another created by artificial intelligence. Any impact on either state or local expenditures is contingent on whether offenders sustain either a misdemeanor or felony-grade convictions for their violation. The exact fiscal impact is indeterminable, as it is unknown how many people will be convicted or the length of the sentences assessed with those convictions as a result of its potential enactment. The maximum imprisonment term for possessing images or videos of another created by artificial intelligence that depicts another person who is totally nude or in a state of undress so as to expose the genitals, pubic area, buttocks, or female breasts, when the person possessing the video or still image either knows or has reason to know that he is not licensed or authorized to possess such video or still image, and the victim is a minor, is no more than five years.

To the extent that offenders sustain a felony-grade conviction for violation of the proposed law, DPS&C-CS will sustain an indeterminable increase in expenditures. For those convicted, sentenced, and then subsequently housed in a state facility, DPS&C-CS will sustain expenditures of \$107.60 per offender per day. For those housed in local facilities, DPS&C-CS will sustain expenditures of \$29.39 per offender per day. DPS&C-CS advises that impacts on offender populations are anticipated to impact the number of offenders held in local facilities, and that in managing its offender population, it seeks to fill all beds in state facilities first, then assigns overflow offenders to local facilities.

To the extent that offenders sustain a misdemeanor conviction for violation of the proposed law, local governing authorities will sustain Local Funds expenditures. The exact fiscal impact of the passage of this legislation to local governing authorities is indeterminable, since it is not known how many people will be convicted and incarcerated in local facilities, nor the length of the sentences assessed with those convictions as a result of its potential enactment.

REVENUE EXPLANATION

Proposed law may result in an indeterminable increase in Local Funds revenues as a result of convictions of possessing images or videos of another created by artificial intelligence that depicts another person who is totally nude or in a state of undress so as to expose the genitals, pubic area, buttocks, or female breasts, when the person possessing the video or still image knowing that he is not licensed or authorized to possess such video or still image. The exact fiscal impact of this legislation on local revenue is indeterminable, as fines imposed are optional, and the amount of fines, if imposed, may vary. The potential revenue will accrue to the local governing authority.
