EXPENDITURE EXPLANATION

This bill could increase local government expenditures by an indeterminate amount.

Assessors' expenditures could increase due to the preparation of assessment lists, supplemental rolls, or change orders associated with such damaged property. Also, the number of appeals by taxpayers and taxing bodies could increase, which may result in an increase in expenditures for local review boards, and possibly the court system.

REVENUE EXPLANATION

Local governmental revenues should decrease as a result of this measure.

The bill provides for an assessment of property flooded by water or damaged by disaster as defined in state law, but does not provide for an adjustment to the ad valorem tax millages. If the assessment results in an overall decrease in property values in a parish or district, tax revenues in that parish or district will decrease. The amount of this decrease cannot be calculated at this time.

This bill allows home owners already receiving a special assessment level to keep the special assessment level even though they cannot occupy the homestead on or before December 31st of a calendar year due to a disaster. The owner must reoccupy the repaired homestead within five years of December 31st of the year following the disaster. This bill allows home owners already receiving a homestead exemption to continue to receive the exemption even though they are not inhabiting their dwelling because it was damaged during a disaster. The homeowner must file an affidavit with the assessor of his intent to return home within 5 years from December 31st of the year following the year in which the disaster occurs.
