EXPENDITURE EXPLANATION

There is no anticipated direct material effect on governmental expenditures as a result of this measure. Creating a new statutory dedication within the state treasury will result in a marginal additional workload for the agency, which can be absorbed with existing resources. However, to the extent other legislative instruments create new statutory dedications, there may be material additional costs associated with the aggregate effort to administer these funds.

REVENUE EXPLANATION

There is no anticipated direct material effect on governmental revenues as a result of this measure. The proposed legislation creates a new statutory dedicated fund within the state treasury but does not provide for a permanent revenue source to flow into the created fund.
