

1           WHEREAS, it is therefore of critical importance that recreation facilities and  
2 opportunities be structured, equipped, or offered in such a way that they are accessible and  
3 can be fully enjoyed by all Louisiana citizens, including children with disabilities; and

4           WHEREAS, little is known about the current state of the accessibility of Louisiana's  
5 recreation facilities and opportunities for children with disabilities, and the House of  
6 Representatives is in dire need of further information about those policies, practices, and  
7 funding streams that would best move the state toward its goal of full access to appropriate  
8 recreation facilities and opportunities for all children with disabilities.

9           THEREFORE, BE IT RESOLVED that the House of Representatives of the  
10 Legislature of Louisiana requests the House Committee on Municipal, Parochial and  
11 Cultural Affairs to study policies, practices, and funding needed to ensure that parks and  
12 recreation centers provide recreation equipment and opportunities appropriate for children  
13 with disabilities and to report its findings to the House of Representatives prior to the  
14 convening of the 2014 Regular Session of the Legislature of Louisiana.
