Stuart Bishop

HB No. 688

Abstract: Requires the Dept. of Health and Hospitals (DHH) to maintain a primary care case management program as long as it operates a Medicaid managed care program.

Proposed law requires DHH to do all of the following:

- (1) Maintain a primary care case management program for so long as it operates a Medicaid managed care program that provides services to Medicaid enrollees through managed care organizations.
- (2) Offer all primary care case management options to a Medicaid enrollee at any time when he is allowed to enroll in the Medicaid managed care program.

Proposed law provides that the terms "primary care case management program" and "managed care organization" shall have the meaning ascribed in federal law (42 CFR 438.2).

(Adds R.S. 46:460.81)
