EXPENDITURE EXPLANATION

There is no anticipated direct material effect on state governmental expenditures as a result of this measure. The proposed legislation is a misdemeanor; therefore, these offenders are not sentenced to the Department of Public Safety and Corrections. Local law enforcement agencies may realize an indeterminable increase in expenditures associated with prison costs. The cost increase will depend on the number of persons convicted, the minimum sentence an offender serves, and the cost per day for a local law enforcement agency to incarcerate an offender.

REVENUE EXPLANATION

There is no anticipated direct material effect on state revenues as a result of this measure. However, any revenue generated through the imposition of fines would accrue to local government entities.
