EXPENDITURE EXPLANATION

The proposed legislation may result in an increase in state general fund expenditures if a defendant is convicted of certain crimes of theft. The proposed legislation consolidates and repeals duplicate provisions in various theft statutes. Additionally, the legislation raises the threshold for felony theft up to 20 years dependent on the value of the theft and some offenders sentenced under the provisions of proposed law in the future would be subject to possibly serving longer sentence lengths. The exact fiscal impact of the passage of this legislation is indeterminable, since it is not known how many people will be convicted of this crime. However, any offender sentenced to the custody of the Department of Public Safety and Corrections increases expenditures by \$24.39 per day per offender in local facilities.

To the extent that offenders are housed in state facilities, the cost per day, per offender is \$52.51.

REVENUE EXPLANATION

There is no anticipated direct material effect on governmental revenues as a result of this measure. Any revenue generated through the imposition of fines created by this legislation would accrue to local government entities.
