Provides relative to assets or property acquired or used by charter schools under certain circumstances

Proposed legislation provides that if a charter contracts with an entity to manage or operate the school, all assets used in the management and operation of the school shall be considered assets of the charter school. The bill would prohibit a charter school from leasing property from the same entity, or any of its affiliate or subsidiary, which it contracts with for the management or operation of the school.

EXPENDITURE EXPLANATION

There is no anticipated direct material effect on governmental expenditures as a result of this measure. The Legislative Fiscal Office does not have information on the number of charter schools currently leasing property from the entity it contracts with for management or operation of the school. To the extent a charter school is prohibited from such an arrangement, there could be limited options which may ultimately impact lease costs.

REVENUE EXPLANATION

There is no anticipated direct material effect on governmental revenues as a result of this measure.
