Creates a prestige license plate for Sci-Port Discovery Center in Shreveport. (8/1/14)

Proposed law requires the Secretary of the Department of Public Safety and Corrections to establish a special prestige motor vehicle license plate for the Sci-Port Discovery Center in Shreveport, provided there is a minimum of 1,000 applicants for the plate. This license plate will be restricted to passenger cars, pickup trucks, recreational vehicles and vans. Proposed law indicates that the secretary shall work in conjunction with the Sci-Port Discovery Center in Shreveport to select the color and design of the plate. Proposed law establishes a royalty fee for the Sci-Port Discovery Center in Shreveport license plate, authorizes a handling fee to be retained by the department, and identifies the recipient of the royalty fees.

**EXPENDITURE EXPLANATION**

The proposed law will result in an indeterminable increase in state expenditures for supplies associated with the manufacture of license plates. The Department of Public Safety indicates the proposed law may require approximately 120 hours of overtime for the Information Services Section at an average cost of \$32 per hour ( $\$32 \times 120 = \$3,840$ ) plus associated Medicare expenses ( $\$3,840 \times 1.45\% = \$56$ ), or a total of \$3,896 in personal services. The legislation will require programming and database modifications performed by IT Applications Analysts to support the new license plate. The Legislative Fiscal Office believes that any additional IT work associated with this legislation will be incremental in nature, and that the Department can potentially accomplish these tasks utilizing existing resources and budget authority. To the extent that numerous pieces of legislation are enacted that require additional programming efforts, the Department may require additional resources.

The proposed legislation will require \$3,700 in supply purchases to manufacture 1,000 "Sci-Port Discovery Center in Shreveport" plates at a cost of \$3.70 per plate ( $\$3.70 \times 1,000 = \$3,700$ ).

The total expenditures in the first year are approximately \$7,596, assuming 1,000 plates are manufactured and sold. Each additional license plate would result in an expenditure increase of \$3.70. Because the cost of manufacturing a plate exceeds the administrative fee allowed to the department, each plate manufactured would result in a \$0.20 impact that would be absorbed within the department's existing budget authority, or may require SGF support if existing authority is insufficient.

**REVENUE EXPLANATION**

The proposed law may generate approximately \$3,500 in self-generated revenue for the Office of Motor Vehicles for every 1,000 "Sci-Port Discovery Center in Shreveport" plates that are issued. The bill authorizes the department to charge a \$3.50 handling fee per license plate sold to offset a portion of administrative costs ( $\$3.50 \times 1,000 \text{ plates} = \$3,500$ ).

The proposed law would also generate \$50,000 in royalty fees at \$25 annually per plate for every 1,000 plates issued (collected every two years upon renewal). Royalties collected by the department are deposited into an escrow account and then would be forwarded to the Sci-Port Discovery Center in Shreveport. The monies received from the royalty fees are to be used solely for the support of programs administered by the Sci-Port Discovery Center in Shreveport.
