

Prior law required the La. Forestry Commission to retain all receipts from the sale of seedlings at commission nurseries. New law instead requires the Dept. of Agriculture and Forestry to retain all receipts from the sale of seedlings at department nurseries.

Prior law required that receipts from the sale of seedlings be expended in the development and operation of the commission's nurseries for scientific forestry research and experimentation for land acquisition and general operations of the commission. New law narrows the scope of prior law to require that receipts from the sale of seedlings only be expended in the general operations of the department nurseries instead of the commission and otherwise retains prior law.

Effective upon signature of the governor (May 16, 2014).

(Amends R.S. 3:4303)
