

Prior law provided for the authority and responsibility of the Gaming Control Board. New law requires the board to annually report to the Senate president and the House speaker the impact that developments in technology are having on gaming and the gaming industry in Louisiana. Requires the report to specifically address awareness and growth, to the extent known, of any unregulated gaming such as Internet or online games, address Internet gaming in jurisdictions in which it is authorized and any enforcement issues the jurisdiction is experiencing with age verification and geo-location, and identify issues for legislative concern and make recommendations regarding such concerns.

Effective August 1, 2014.
