Provides for reporting measures for the Medicaid managed care program and the Louisiana Behavioral Health Partnership program. (gov siq)

Current law provides for reporting requirements of the Department of Health and Hospitals concerning Bayou Health and the Louisiana Behavioral Health Partnership. Proposed law amends existing law to require the following: 1) managed care reports shall be submitted June 30th each year based on prior fiscal year (except in relation to data measures that require reporting of health outcomes based on a calendar year; 2) eliminates the requirement to report certain outcome comparisons to fee for service legacy Medicaid; 3) allows for reporting by parish and not geographical service area; and 4) incorporates the Louisiana Behavioral Health Partnership report into the Bayou Health report on June 30, 2016 or six months following the integration of behavioral health into Bayou Health.

Proposed law requires DHH to make available to the public on its website all informational bulletins, health plan advisories, and guidance published by DHH concerning Bayou Health. Every MCO shall report to the department the URL of a web page which contains a publicly accessible copy of all practice guidelines utilized by each MCO which are required to be made available to healthcare providers. The department shall place and maintain publicly accessible web links to each of these respective web pages upon the website operated by the department.

EXPENDITURES	2015-16	2016-17	2017-18	2018-19	2019-20	5 -YEAR TOTAL

Annual Total	\$0	\$0	\$0	\$0	\$0	\$0

EXPENDITURE EXPLANATION

There is no anticipated direct material effect on DHH expenditures as a result of this measure. As of 2014, the Department of Health and Hospitals is required and has produced annual reports to the Senate and House committees on Health and Welfare relative to Bayou Health and the Louisiana Behavioral Health Partnership. This measure appears to clarify existing reporting measures and also provide for additional reporting requirements and submittal timelines of the department related to managed care. Additional requirements include removal of reporting on shared savings plans, requires reporting by parish and not geographical service area, no longer requires certain comparisons to fee for service Medicaid required in initial report, and authorizes the merger of both the Bayou Health (BH) Report and Louisiana Behavioral Health (LBHP) report 6 months following the integration of the LBHP into BH. information required in the annual reports is provided by the health plans, and currently audited by DHH through a professional services contract. Additionally, requiring the department to place and maintain publicly accessible web links on its web page to each MCO's web page is not anticipated to impact expenditures of DHH.

REVENUE EXPLANATION

There is no anticipated direct material effect on governmental revenues as a result of this measure.
