Subject: Reverse Transfer of Academic Credits for Veterans/Spouses	

POSTSECONDARY ED OR SEE FISC NOTE GF EX Page 1 of 2
 Provides for the reverse transfer of academic credits and the award of certain credits to veterans and their spouses. (gov sig)

Proposed law authorizes and encourages four-year colleges and universities and community colleges to enter into reverse articulation or reverse transfer agreements to facilitate the transfer of academic credits earned by a student while enrolled in a four-year postsecondary institution back to a community college for the purpose of enabling a student to complete the requirements for an associate degree from the community college. Requires the Statewide Articulation and Transfer Council (SATC) to establish guidelines to govern the reverse transfer of academic credits between four-year colleges and universities and community colleges. Proposed law requires every articulation and transfer agreement developed and implemented to maximize the number of academic or workforce education credits awarded to veterans of the U.S. Armed Forces for their military education, training, or experience and provide for their seamless transfer from one public postsecondary institution to another. **(Bill Summary Continued on Page Two)**

EXPENDITURE EXPLANATION

Most of the bill's provisions should not have a significant impact on expenditures at public colleges and universities in the state. However, the Board of Regents and higher education management boards have not reviewed the proposed amendments and provided information on potential fiscal impacts to the Legislative Fiscal Office at this time.

The part of the bill related to transfer of academic credit hours earned by a veteran or their spouses from a postsecondary educational institution that offers academic coursework to military personnel should not significantly increase costs for colleges and universities in the state because it requires that institutions sending the credits be accredited by appropriate regional accrediting bodies and that the credits be aligned with the course and program requirements of the receiving institution. Accepting credits from out of state accredited institutions that are aligned with the course and program requirements of Louisiana's public postsecondary institutions is likely a common practice in the state. The portion of the bill requiring the Statewide Articulation and Transfer Council (SATC) to provide for the transfer of academic credit hours earned by a veteran or their spouses from a postsecondary educational institution that offers academic coursework to military personnel should not significantly increase costs for colleges and universities in the state for the same reasons.

It is unclear if there will be significant costs to public colleges and universities related to the bill's reporting requirements. The proposed legislation requires the Board of Regents to annually report the following to the Senate and House Education committees: 1) The number of academic or workforce education credits awarded to veterans of the United States Armed Forces for their military education, training, or experience. 2) The number of academic credits earned by veterans and spouses of veterans from a postsecondary educational institution that are transferred to a Louisiana public postsecondary educational institution. It is unclear if colleges and universities can provide this information with existing data and reporting systems. The Legislative Fiscal Office will research this issue and include updated information when available.

REVENUE EXPLANATION

There is no anticipated direct material effect on governmental revenues as a result of this measure.

CONTINUED EXPLANATION from page one:

(Bill Summary Continued from Page One)

Proposed law requires the SATC to utilize the "Guide to the Evaluation of Educational Experiences in the Armed Services" and the standards of the American Council on Education to govern the award or transfer of academic or workforce credit to veterans for military education, training, or experience. Each Louisiana public postsecondary educational institution shall assist veterans of the United States Armed Forces and their spouses in pursuing their educational goals by providing expedited transcript analysis, prior learning assessment, portfolio analysis, advising, and testing. At the request of an entering student who is a veteran or the spouse of a veteran, each public postsecondary educational institution shall evaluate any transcript of prior earned postsecondary academic credit and accept the transfer of any credit earned from a regionally accredited postsecondary institution, provided that the credit aligns with the course and program requirements of the receiving institution. Proposed law requires the SATC to coordinate and oversee the development of a military articulation and transfer process that shall be adhered to by all public postsecondary education institutions that will: (1) Recognize and align military education, training, or experience with the appropriate academic or workforce coursework. (2) Provide for the transfer of academic credit hours earned by a veteran or the spouse of a veteran from a postsecondary educational institution that offers academic coursework to military personnel and their spouses, provided such institution is accredited by the appropriate regional accrediting body and the credit to be transferred is aligned with the course and program requirements of the receiving institution. Proposed law requires the SATC to give proper consideration to the admissions standards and role, scope, and mission of each public postsecondary institution in developing the military articulation and transfer process. Proposed law requires that any policy adopted by a postsecondary education management board must conform to the provisions of proposed law. Proposed law requires the SATC to meet not later than September 15, 2015, to begin the process of implementing the provisions of proposed law. Further provides that the provisions of proposed law shall be implemented not later than the beginning of the Spring semester of the 2015-2016 academic year. Proposed law requires the Board of Regents to annually report the following to the Senate and House committees on education: (1) The number of academic or workforce education credits awarded to veterans for their military education, training, and experience. (2) The number of academic credit hours earned by veterans and spouses of veterans from a postsecondary educational institution that are transferred to a La. public postsecondary institution. Proposed law specifies that this information be reported in aggregate and by public postsecondary educational institution. Effective upon governor's signature.
