15 * * *

16 C.(1) In accordance with the provisions of this Section, the board of trustees
17 may recommend to the president of the Senate and the speaker of the House of

19 retirees whose first employment making them eligible for membership in a state
20 system occurred on or before June 30, 2017, and to ~~and~~ beneficiaries of such
21 members whenever the conditions in this Section are satisfied and the balance in the
22 Employee Experience Account is sufficient to fully fund such benefit on an actuarial
23 basis, as determined by the system's actuary. If the legislative actuary disagrees with
24 the determination of the system's actuary, a cost-of-living adjustment shall not be
25 granted. The board of trustees shall not grant a cost-of-living adjustment unless such
26 cost-of-living adjustment has been approved by the legislature. Any such
27 cost-of-living adjustment granted on or before June 30, 2015, shall be limited to and
28 shall only be payable based on an amount not to exceed eighty-five thousand dollars
29 of the retiree's annual benefit. Any such cost-of-living adjustment granted on or after

1 July 1, 2015, shall be limited to and shall only be payable based on an amount not

 25 adjustment to all retirees and beneficiaries who are at least age sixty-five, which
 26 shall consist of an amount equal to two percent of the benefit being received on the
 27 date of the adjustment. In order to grant such supplemental cost-of-living
 28 adjustment, the board of trustees shall recommend to the president of the Senate and
 29 the speaker of the House of Representatives that the system be permitted to grant

1 such supplemental cost-of-living adjustment to retirees and beneficiaries whenever
2 the balance in the Employee Experience Account is sufficient to fully fund such
3 benefit on an actuarial basis, as determined by the system's actuary. If the legislative
4 actuary disagrees with the determination of the system's actuary, such supplemental
5 cost-of-living adjustment shall not be granted. The board of trustees shall not grant

9 shall only be payable based on an amount not to exceed eighty-five thousand dollars
10 of the retiree's annual benefit. Any such supplemental cost-of-living adjustment paid
11 on or after July 1, 2015, shall be limited to and shall only be payable based on an
12 amount not to exceed sixty thousand dollars of the retiree's annual benefit. Effective
13 on and after July 1, 2007, and on or before June 30, 2015, the eighty-five thousand

15 consumer price index (United States city average for all urban consumers (CPI-U)),
16 as prepared by the United States Department of Labor, Bureau of Labor Statistics,

20 (CPI-U)), as prepared by the United States Department of Labor, Bureau of Labor
21 Statistics, for the twelve-month period ending on the system's valuation date, if any.
22 Any cost-of-living adjustment granted pursuant to the provisions of this Subsection
23 shall begin on July first following legislative approval and shall be payable annually.

24 (2) No member whose first employment making him eligible for
25 membership in a state system occurs or after July 1, 2017, shall be eligible for a

22 any back-deferred retirement option plan or program.

23 §1399.6. Defined contribution portion

24 A.(1) Each member shall have a defined contribution plan account

1 B.(1) The board of trustees of each system shall select no more than three
2 companies from which contracts will be purchased for the provision of defined
3 contribution accounts for employees. In setting the criteria for this selection, the
4 board shall consider, among other things, the following:

6 based on the number of states in which the designated company provides contracts
7 under similar plans.

8 (b) The nature and extent of the rights and benefits to be provided by the
9 contracts for participating employees and their beneficiaries.

21 C. Upon retirement, a minimum of seventy-five percent of the value of the
22 member's account balance shall be annuitized by the company maintaining the

24 annuitized. A member who does not elect to annuitize his entire account balance
25 may withdraw some or all of his remaining account balance as: one or more lump-

3 retirement shall be as follows:

4 (1) In the event of termination prior to attaining five years of participation

8 (2) In the event of termination after a member attains five years of
9 participation in the defined contribution plan but prior to retirement, the member

13 E. A member who has not terminated employment or retired may not
14 withdraw funds from his defined contribution account prior to retirement or borrow
15 against such funds.

22 System shall be eligible for retirement if he has:

23 (a) Five years or more of service, at age sixty-five or thereafter.

24 (b) Twenty years of service credit at age fifty-five, exclusive of military
25 service and unused annual and sick leave, but any person retiring under this
26 Subparagraph shall have his defined benefit, inclusive of military service credit and
27 allowable unused annual and sick leave, actuarially reduced from the earliest age that
28 he would normally become eligible for a regular retirement benefit under
29 Subparagraph (a) of this Paragraph if he had continued in service to that age.

1 (2) A member of the State Police Retirement System or a hazardous duty
2 member shall be eligible for retirement if he has:

3 (a) Twelve years or more of service, at age fifty-seven or thereafter.

4 (b) Twenty years of service credit at any age, exclusive of military service
5 and unused annual and sick leave, but any person retiring under this Subparagraph
6 shall have his defined benefit, inclusive of military service credit and allowable
7 unused annual and sick leave, actuarially reduced from the earliest age that he would
8 normally become eligible for a regular retirement benefit under Subparagraph (a) of
9 this Paragraph if he had continued in service to that age.

10 §1399.8. Disability and death benefits

11 A.(1) The defined benefit plan disability and death benefits shall be as
12 otherwise determined and provided in Tier 1; however, the accrual rate used to
13 calculate any such benefits shall not exceed the member's rate in the hybrid plan.

14 (2) If the hybrid plan member has not met the eligibility requirements for
15 survivors' benefits in the applicable Tier 1 plan, the system shall give his designated
16 beneficiary or his estate the option to receive the portion of the account balance the
17 member would otherwise have been entitled to as a lump-sum payment; a trustee-to-
18 trustee, single-sum transfer between qualified plans; or a payment made directly to
19 an individual retirement account.

20 B. A member receiving disability benefits based on defined benefit plan
21 provisions shall be entitled access his defined contribution account as provided in
22 R.S. 11:1399.6(C), including interest on contributions as provided in R.S.
23 11:1399.6(D).

24 C. If distributed as death benefits, a deceased member's defined contribution
25 account shall be divided as follows:

26 (1) If there is a surviving spouse and no minor children, the spouse shall
27 have the same options with respect to the account balance that the member would
28 have had.

1 (2) If there is a surviving spouse and at least one minor child or child with
2 a disability, the surviving spouse shall receive an annuity based on one-half of the
3 account balance and the other half of the account balance shall be divided on a pro
4 rata basis between the remaining minor children and children with a disability and
5 annuitized.

6 (3) If there is no surviving spouse but there is at least one minor child, the
7 account shall be divided on a pro rata basis between the minor children and children
8 with a disability and annuitized.

9 D. If any disability retiree of the hybrid retirement plan who is under his
10 normal retirement age is restored to active service, his defined benefit retirement
11 allowance and ability to access his defined contribution account shall cease, he shall
12 again become a member of the retirement system, and he shall contribute thereafter
13 at the current rate in effect at the time he is restored to service, and if he contributes
14 for at least three years after restoration to active service, the period of time on
15 disability shall be counted as accredited service for purposes of establishing
16 retirement eligibility in the defined benefit portion of the plan, but not for
17 computation of benefits. Any prior service certificate on which his service was
18 computed at the time of his retirement shall be restored to full force and effect and,
19 in addition, upon his subsequent retirement he shall be credited with all his service
20 as a member. The remaining value of any annuity paid to the rehabilitated member
21 from his defined contribution account balance shall be converted back to a lump sum
22 and deposited into the member's defined contribution account. Contributions to the
23 defined contribution account shall resume and be added the balance in the account
24 at the time of restoration to active service.

25 §1399.9. Cost-of-living adjustments on defined benefit

26 A.(1) Each qualifying retiree and beneficiary of a hybrid plan member shall
27 have the defined benefit portion of his benefit increased permanently on July first in
28 each odd-numbered calendar year. The amount of the increase shall be the lesser of:

29 (a) Two percent of the benefit amount.

1 (b) An amount equal to the consumer price index for all urban consumers for
2 the South as calculated by the United States Department of Labor, Bureau of Labor
3 Statistics, for the twelve-month period ending on the May thirtieth immediately
4 preceding the payment of the benefit increase.

5 (2) To be eligible for the permanent benefit increases provided in this
6 Subsection, a retiree:

7 (a) Shall have been separated from employment and receiving a benefit for
8 at least one year.

9 (b) Shall have attained his normal retirement age.

10 (3) A nonretiree survivor or beneficiary shall be eligible for the permanent
11 benefit increases provided in this Section:

12 (a) If the benefits have been received by the retiree or the beneficiary or both
13 combined for at least one year.

14 (b) If the retiree would have attained age sixty-five.

15 (4) The provisions of Subparagraph (3)(b) of this Subsection shall not apply
16 to any person who receives benefits based on the death of a disability retiree.

17 B. Each permanent benefit increase provided pursuant to this Section shall
18 be payable based only on an amount not to exceed fifty thousand dollars of the
19 recipient's annual benefit.

20 C. Each time the system actuary performs an experience study, he shall also
21 evaluate whether and to what extent contributions required to fund the benefits
22 provided for in this Section meet or exceed such liabilities. This assessment shall be
23 based on stochastic modeling.

24 §1399.10. Commingling of assets and accounting

25 Assets of the hybrid plan shall be commingled with assets of the other system
26 plans for investment purposes. Assets of this plan shall be available to fund benefits
27 of all plans within the system, including this plan. A fictitious account for this tier
28 of benefits shall be established for the purposes of accounting for assets and
29 liabilities of this plan and determining funding requirements of this plan.

1 §1399.11. Applicability

2 The provisions of the applicable Tier 1 system or plan shall apply to the

3 hybrid plan for any matter on which this Chapter is silent. In case of any conflict

4 between the provisions of Tier 1 and the hybrid plan, the hybrid plan shall prevail.

5 Section 2. This Act shall become effective on July 1, 2016; if vetoed by the governor

6 and subsequently approved by the legislature, this Act shall become effective on July 1,

7 2016, or on the day following such approval by the legislature, whichever is later.

HB 66 Original

2016 Regular Session

Ivey

Abstract: Establishes a hybrid retirement plan for members of state retirement systems whose first employment making them eligible for membership in a state system occurred on or after July 1, 2017.

Present law establishes 4 state retirement systems—the La. State Employees' Retirement System (LASERS), the Teachers' Retirement System of La. (TRSL), the La. School Employees' Retirement System (LSERS), and the State Police Retirement System (STPOL)—and provides a defined benefit retirement plan for members of each system. Proposed law establishes a hybrid retirement plan (Hybrid Plan)—consisting of a combination of a small defined benefit pension and a defined contribution (DC) account—for members of each system whose first employment making them eligible for membership in a state system occurred on or after July 1, 2017 (hereafter referred to as "new members").

Cost Sharing

Present law establishes a fixed rate at which members must contribute to each state and statewide retirement system. Proposed law retains present law for those who are not new members. Further establishes a floating rate for new members based on an equal division of the cost of the plan for new members.

Present law establishes the formula by which employer contribution rates are calculated each year. Generally requires the employer to fund 100% of unfunded accrued liability (UAL) payments. Proposed law requires new members to split equally the cost of their benefit accruals (the "Normal Cost") and the cost of any UAL attributable to their plan. Does not require new members to pay any portion of UAL created prior to the establishment of the Hybrid Plan.

COLAs

Present law provides a mechanism for paying cost-of-living adjustments (COLAs) to retirees of state retirement systems using investment gains over and above certain pre-determined levels. Proposed law retains present law for those who are not new members. For new members, proposed law establishes a pre-funded COLA mechanism, the cost of which is split between new members and employers. Upon retirement (or death), in every odd-

numbered year, a qualifying new member or beneficiary of such will receive a COLA equal to the lesser of:

- (1) Two percent.
- (2) The CPI-U for the South as calculated by the U.S. Dept. of Labor, Bureau of Labor Statistics, for the 12-month period ending on the May thirtieth immediately preceding the payment of the benefit increase.

Further provides that such COLA shall only be paid on the first \$50,000 of a retiree or beneficiary's benefit amount.

Proposed law establishes the following qualifications for receipt of a COLA:

- (1) Any retiree who has received a benefit for at least one year and who has attained at least his normal retirement age.
- (2) Any nonretiree beneficiary who has received a benefit for at least one year (aggregated with any time the deceased member may have received a benefit) if the deceased member would have attained his normal retirement age.
- (3) Any disability retiree or any beneficiary who receives benefits based on the death of a disability retiree if benefits have been received for at least one year.

Regular Retirement Benefits

Defined Benefit Plan

Present law provides a retirement benefit that combines average compensation with a percentage multiplier for each year of service. This calculation can be rendered as:

$$\text{Accrual Rate} \times \text{Years of Service} \times \text{Average Compensation}$$

Present law for TRSL, LSERS, and rank-and-file members of LASERS provides an accrual rate of 2.5% of average compensation for each year of a member's service. Proposed law retains present law for those who are not new members. Further establishes a tiered accrual rate for regular retirement benefit calculations for such new members as follows:

- (1) For every year of creditable service less than 5 years the rate shall equal 1.5% of average compensation.
- (2) For every year of the 5th through the 9th years of creditable service, the rate shall equal 1.75% of average compensation.
- (3) For every year of the 10th through the 14th years of creditable service, the rate shall equal 2% of average compensation.
- (4) For every year of the 15th through the 24th years of creditable service, the rate shall equal 2.5% of average compensation.
- (5) For every year of the 25th through the 29th years of creditable service, the rate shall equal 3% of average compensation.
- (6) For every year of the 30th through the 34th years of creditable service, the rate shall equal 3.25% percent of average compensation.
- (7) For the 35th year of creditable service and for each year of creditable service thereafter, the rate shall equal 4% of average compensation.

Present law for STPOL and for the Hazardous Duty Services Plan (hereafter "Haz. Duty") members provides an accrual rate of 3.33% of average compensation for each year of such member's service. Proposed law retains present law for those who are not new members. Further establishes a tiered accrual rate for regular retirement benefit calculations for such new members as follows:

- (1) For every year of creditable service less than 5 years the rate shall equal 2% of average compensation.
- (2) For every year of the 5th through the 9th years of creditable service, the rate shall equal 2.5% of average compensation.
- (3) For every year of the 10th through the 14th years of creditable service, the rate shall equal 3.25% of average compensation.
- (4) For every year of the 15th through the 19th years of creditable service, the rate shall equal 3.75% of average compensation.
- (5) For every year of the 20th through the 24th years of creditable service, the rate shall equal 4% of average compensation.
- (6) For the 25th year of creditable service and for each year of creditable service thereafter, the rate shall equal 4.5% of average compensation.

Present and proposed law prohibit a members benefit from exceeding his average compensation.

Present law establishes a five-year vesting period for the right to a benefit from the defined benefit plan. Proposed law retains present law for all members, regardless of the date of hire.

DC Plan

Proposed law establishes a DC account with a third-party provider for each new member. Requires the board of trustees of each system to select up to three third-party providers who will administer the DC accounts for new members. Establishes criteria for the board to use in evaluating potential third-party providers. Requires each board to select from the funds offered by each provider a minimum of 10 and a maximum of 25 fund options in a range of risk and return profiles that will be offered to new members in the DC plan. Requires at least one investment option to be a fund with a guaranteed rate of return.

Proposed law provides that new member DC accounts for TRSL, LSERS, and rank-and-file members shall be credited with 10% of pay each month. Further provides that new member DC accounts for STPOL and hazardous duty members shall be credited with 12% of pay each month.

Proposed law establishes a five-year vesting period for the right to employer contributions and interest credited to the new member's account. The new member's right to access interest on employee and employer contributions made to the DC account is triggered by the member's retirement (regular or disability) or death, whichever occurs first.

Proposed law provides that if a member terminates employment prior to attaining five years of participation in the defined contribution plan, the employee is entitled to a return of all employee contributions, without interest. All interest and employer contributions will be forfeited to the system.

Proposed law further provides that if a member terminates employment after attaining five years of participation in the DC plan, but prior to retirement, he must leave his account balance with the third-party provider until the first age at which he may begin to draw an unreduced retirement benefit and may then exercise all options in proposed law for members who retire from the system.

Proposed law provides that upon retirement, a member must annuitize at least 75% of his DC account balance with the third-party provider. The member may chose the percentage of his account, up to 25%, that will not be annuitized. Any portion of the account that is not annuitized may be withdrawn in one or more lump-sum payments or rolled to another qualified retirement account, such as an IRA.

Proposed law prohibits a new member who has not terminated employment or retired from withdrawing funds from his DC account or borrowing against such funds.

Retirement Eligibility

Present law for TRSL, LSERS, and rank-and-file members of LASERS provides that a member hired on or after July 1, 2015, is eligible for regular retirement if he has:

- (1) Five years of service at age 62 or thereafter.
- (2) 20 years of service at any age, actuarially reduced.

Proposed law provides that, for TRSL, LSERS, and rank-and-file members of LASERS, a new member is eligible for regular retirement if he has:

- (1) Five years of service at age 65 or thereafter.
- (2) 20 years of service at age 55 or thereafter, actuarially reduced.

Present law for STPOL and the Hazardous Duty members of LASERS provides that a member hired on or after July 1, 2015, is eligible for regular retirement if he has:

- (1) 12 years of service at age 55 or thereafter.
- (2) 25 years of service at any age.
- (3) 20 years of service at any age, actuarially reduced.

Proposed law provides that for STPOL and the Haz. Duty members of LASERS, a new member is eligible for regular retirement if he has:

- (1) 12 years of service at age 57 or thereafter.
- (2) 20 years of service at any age, actuarially reduced.

Disability & Death Benefits

Proposed law provides that disability and death benefits for new members shall be calculated as though the member had been hired prior to July 1, 2017 ("Tier 1"); however, restricts the accrual rate used in any such calculation to the hybrid plan rate applicable to the member.

Proposed law provides that if the new member did not meet the eligibility requirements for the applicable Tier 1 survivors benefits, his designated beneficiary or his estate shall receive the DC account balance the member would otherwise have been entitled to as a lump-sum or a transfer to another qualified retirement plan.

Proposed law provides that if a member does meet the Tier 1 survivor benefit qualifications, his DC account shall be divided as follows:

- (1) If there is a surviving spouse and at least one minor child or child with a disability, the surviving spouse shall receive an annuity based on one half of the account balance. The other half of the account balance shall be divided pro rata between the minor children and children with disabilities and annuitized.
- (2) If there is no surviving spouse but there is at least one minor child or child with a disability, the account shall be divided pro rata between the minor children and children with disabilities and annuitized.

Proposed law provides that a member receiving disability benefits from the defined benefit plan may access and annuitize his DC account, including employer contributions and all interest.

Proposed law provides that if a disability retiree who is under his normal retirement age is restored to active service, his disability benefit payments and access to the balance of his DC account shall cease. He shall resume contributions to the retirement system and if he continues in service for at least three years after restoration, the period of time spent on disability shall be counted toward normal retirement eligibility, but will not count towards calculation of benefits. Requires the remaining value of any annuity based on the DC account balance to be converted back into a lump sum and deposited into the member's account. Further provides that contributions to the member's DC account shall resume and be added to the balance in the account at the time he is restored to active service.

Applicability of Tier 1 Provisions

Proposed law provides that the provisions of the Tier 1 tier that the member would have been enrolled in but for his date of hire shall apply in any case where the provisions of the Hybrid Plan are silent.

Effective July 1, 2016.
