HB 660 Original

2016 Regular Session

Jones

Abstract: Exempts the State Library of La. from the requirement of giving priority to the blind in the operation of vending stands, machines, cafeterias, and other small business concessions. Present law provides for the promotion of vocational rehabilitation of persons disabled in industry or otherwise and their return to civil employment.

Present law provides that the La. Rehabilitation Services may establish and administer an adequate system of conservation of sight and prevention of blindness, vocational training, and rehabilitation for the blind and may make the rules and regulations necessary for the efficient administration thereof.

Present law requires state agencies, boards, commissions, and institutions owning, maintaining, occupying, or controlling property to give priority to individuals who are blind in the operation of vending stands, vending machines, cafeterias, and other small business concessions to be operated in such properties. Provides that no other vending stands, vending machines, cafeterias, or small business concessions may be operated on the same premises. Exempts state colleges and universities contracting for food services, vending operations, or other such services and state developmental centers within the Dept. of Health and Hospitals from present law requirements.

Proposed law retains present law and additionally exempts the State Library of La. from the provisions of present law.
