Abstract: Relative to the members of the board of directors of the Louisiana Energy and Power Authority, provides that employees of a municipality not domiciled there may be directors.

Present law creates the La. Energy and Power Authority as a political subdivision of the state for the purpose of providing facilities for the generation and/or transmission of electric power and energy, and to vest the Authority with all powers necessary to enable it to accomplish its purposes for the benefit of participating municipalities.

Proposed law retains present law.

Present law provides that the La. Energy and Power Authority shall be governed by a board of directors and provides for terms of the members of such board. Requires directors to be U.S. citizens domiciled in La. and the municipality represented.

Proposed law generally retains present law but provides that an employee of the municipality not domiciled there may be a director.

Present law provides that a director representing a municipality governed by a parish-council consolidated form of government is not required to be domiciled in the municipality he represents, but shall be domiciled anywhere within the parish in which the municipality is located.

Proposed law generally retains present law but provides that an employee of the municipality not domiciled in the parish may be a director.
