2016 Regular Session

HOUSE BILL NO. 2

BY REPRESENTATIVE ABRAMSON

CAPITAL OUTLAY: Provides for the comprehensive Capital Outlay budget

1 AN ACT

2 To provide with respect to the capital outlay budget and the capital outlay program for state
3 government, state institutions, and other public entities; to provide for the
4 designation of projects and improvements; to provide for the financing thereof
5 making appropriations from certain sources; and to provide for related matters.

6 Be it enacted by the Legislature of Louisiana:

7 Section 1. The following sums or so much thereof as may be necessary are hereby
8 appropriated out of any monies in the state treasury from the sources specified, from federal
9 funds and self-generated revenues belonging to the state of Louisiana and/or collected by
10 boards, commissions, departments, and agencies thereof, all for making capital outlay and
11 for the purposes and in the amounts specified herein for the Fiscal Year commencing July
12 1, 2016, and ending June 30, 2017, subject to the conditions thereafter provided:

13 A project with funding payable from General Obligation Bonds Priority 1 indicates
14 that the funding for the project includes the reauthorization of funding which was previously
15 on a line of credit granted by the State Bond Commission in Fiscal Year 2015-2016. As
16 used in this Section, the term "general obligation bonds" means state general obligation
17 bonds or other evidences of indebtedness payable from the Bond Security and Redemption
18 Fund. The amount set forth in this Section opposite each project, or so much thereof as may
19 be necessary, is hereby appropriated and payable from the proceeds available from the sale
20 of general obligation bonds, unless a different source of funding is indicated. Where such

1 a different source of funding is indicated, the corresponding amount set forth, or so much
2 thereof as may be necessary, is hereby appropriated and payable from the source of funding
3 indicated; provided, however, amounts appropriated and payable from federal funds may be
4 encumbered or expended only to the extent such amounts shall have been committed or
5 received. Pursuant to the provisions of R.S. 39:82, funds for planning, acquisition,
6 construction, and major repair projects appropriated by this act may be retained until
7 completion of the project, even if no bona fide liability exists on the last day of the fiscal
8 year.

9 This Act shall constitute the comprehensive state capital outlay budget for the 2016-
10 2017 Fiscal Year. Projects set forth which are payable from the proceeds available from the
11 sale of general obligation bonds shall have the priorities as indicated. The Request for Line
12 of Credit form used by the Attorney General and Bond Counsel in evaluating Louisiana
13 Constitutional, Internal Revenue Code, and applicable income tax regulations shall be filed
14 with the Commissioner of Administration, State Bond Commission, and State Attorney
15 General. No general obligation bonds shall be sold, nor cash lines of credit granted to fund
16 any lower priority project prior to the sale of general obligation bonds or the granting of cash
17 lines of credit to fund all higher priority projects (the "general rule"), except as hereinafter
18 provided. This prohibition against funding a lower priority project shall not apply upon a
19 showing of an impossibility or impracticality either to proceed with all unfunded higher
20 priority projects or to proceed with the funding of such projects or any part thereof through
21 the issuance of general obligation bonds for any reason. Such showing shall be stated in
22 reasonable detail in a certificate or certificates signed by the state agency responsible for
23 administering the funding, and filed with the Commissioner of Administration and the State
24 Bond Commission (hereinafter referred to as "the Commission"). Upon a determination by
25 the Commission that proceeding with such a project or the funding thereof through the
26 issuance of general obligation bonds is impractical or impossible, the Commission may then
27 proceed with the sale of general obligation bonds or the granting of cash lines of credit
28 without regard to the priority of the unfunded projects determined to be impossible or
29 impractical.

1 Upon recommendation by the state agency responsible for administering the funding,
2 if it is determined at any time that proceeding with the project or with the funding thereof
3 is no longer impossible or impractical, the State Bond Commission may rescind the
4 certificate of impossibility or impracticality and may proceed with the project or with the
5 issuance of general obligation bonds or the granting of cash lines of credit to fund the
6 project. Alternatively, the Interim Emergency Board (hereinafter referred to as "the Board"),
7 upon reviewing certificates as described above and determining that proceeding with such
8 project or the funding thereof through the issuance of general obligation bonds is impossible
9 or impractical, may designate a lower priority for such project. The Board's determination
10 and lower priority designation shall be submitted to the members of the Legislature for their
11 approval in accordance with the provisions of Chapter 3-B of Subtitle I of Title 39 of the
12 Louisiana Revised Statutes of 1950. In accordance with the provisions of Chapter 3-B of
13 Subtitle I of Title 39 of the Louisiana Revised Statutes of 1950, whenever at the written
14 request of the appropriate legislators and agency, the Board determines that an adjustment
15 to a project description originally set forth in such capital budget adopted by the Legislature
16 for a current fiscal year is necessary to correct a mistake in a project description, clarify a
17 description, change the scope of a description, or make any other adjustment the Board
18 deems necessary to implement the purpose of the project, such adjustment shall become
19 effective only upon the approval by majority vote of the elected members of each house of
20 the Legislature in the manner provided for in Chapter 3-B of Subtitle I of Title 39 of the
21 Louisiana Revised Statutes of 1950.

22 If such approval is granted, notification by the chair or secretary of the Board of the
23 results of the balloting shall be transmitted to the State Bond Commission, which may then
24 proceed with the sale of general obligation bonds or the granting of cash lines of credit for
25 each change approved upon request of the Commissioner of Administration in accordance
26 with the general rule.

27 With respect to Priorities 1 through 5, a lower priority project may be moved to a
28 higher priority only upon a showing of an emergency or other cause not reasonably
29 anticipated by the Legislature, which shall be stated in reasonable detail in a certificate

1 signed by the head of the appropriate department, political subdivision, or agency and filed
2 with the Commissioner of Administration and the Board. Upon a determination by the
3 Board that such project should be moved to a higher priority because of an emergency or
4 other cause not reasonably anticipated by the Legislature, the Board shall designate a higher
5 priority to the project. The matter then shall be submitted to and be subject to the same
6 approval by the members of the Legislature in the manner previously indicated in this
7 Section. If such approval is granted, notification by the chair or secretary of the board of the
8 change of priority shall be transmitted to the State Bond Commission, which then upon
9 request of the Commissioner of Administration, may proceed with the sale of general
10 obligation bonds or the granting of cash lines of credit in accordance with the general rule.
11 As to projects within a priority, the State Bond Commission acting on requests submitted by
12 the Commissioner of Administration shall determine when such project, or phases thereof,
13 shall be funded. In making such determination, the State Bond Commission shall consider
14 the amount of proceeds of general obligation bonds to be made available in light of money
15 and capital market conditions; the expenditure requirements of the project; the time required
16 for architectural plans and drawings, public bidding, and site acquisition and preparation;
17 availability of receipt of federal monies; litigation affecting the undertaking or completion
18 of a project; federal tax laws and regulations regarding the sale of municipal bonds; and
19 other items of a similar nature bearing upon the possibility or the necessity to commence a
20 project or any particular phase thereof.

21 Any other provision of this Act to the contrary notwithstanding, projects described
22 in Priority 5 of this Act shall not be moved to a higher priority except upon one of the
23 following conditions: (1) Funding is necessary to complete or additionally fund a project
24 located elsewhere in the capital outlay act. Determination of such condition shall be made
25 by the head of the appropriate department or agency by means of a certificate to that effect
26 filed with the Interim Emergency Board, who shall, by mail ballot, request approval of such
27 change and if approved by a majority of each house of the Legislature it shall be funded, or
28 (2) unless required by an emergency or other cause not reasonably anticipated by the
29 Legislature, to be in accordance with procedures set forth in this Section. However, the State

1 Bond Commission may authorize a non-cash line of credit for any project in Priority 5 which
2 represents that portion of construction contracts which were let during a previous fiscal year,
3 or construction contracts which will be let during the current fiscal year, but which will not
4 require cash expenditures during the year. Such non-cash lines of credit, when combined
5 with previously sold bonds or with higher priority bonds or lines of credit, or with funds
6 appropriated from other sources, will provide sufficient appropriated funds to award
7 equipment or construction contracts. Contracts shall not be awarded without approval of the
8 Division of Administration.

9 Upon approval by the State Bond Commission, and subject to compliance with its
10 policies and procedures and the procedures set forth herein, a line of credit providing for the
11 use of funds in anticipation of the sale of general obligation bonds may be granted to the
12 appropriate administering agency or department from the Comprehensive Capital Outlay
13 Escrow Account, or if there is not a sufficient amount available in such account, from other
14 available state cash in the state treasury, for capital improvement projects for which bond
15 proceeds are appropriated by a current capital budget, prior to the actual issuance of bonds
16 for such projects, unless the attorney general advises that an impediment exists to the valid
17 issuance of the bonds on the date such line of credit is granted.

18 All bonds that are to be repaid, in whole or in part, by revenues generated by the
19 project shall be designated as "Reimbursement Bonds". The State Bond Commission shall
20 enter into such agreements as are necessary to provide that the agency or subdivision, whose
21 project is reimbursable, shall pay the bond debt costs into the Bond Security and Redemption
22 Fund. Such costs may be paid annually or at the end of the term of the bonds issued as
23 determined by the State Bond Commission.

24 Priority 1 general obligation bond funding shall be limited to:

25 (1) Projects and amounts which were previously authorized by Act 26 of the 2015
26 Regular Session of the Legislature; and which were granted cash lines of credit by the State
27 Bond Commission. The bonds to fund these projects were not sold in Fiscal Year 2015-
28 2016.

1 (2) The reauthorization of the portion of the outstanding Fiscal Year 2015-2016
2 Priority 5 Non-Cash Lines of Credit for projects which will require cash expenditures in
3 Fiscal Year 2016-2017 and therefore must be converted to Cash Lines of Credit in Fiscal
4 Year 2016-2017.

5 (3) Commitments made in the Higher Education Desegregation Settlement
6 Agreement.

7 Priority 2 general obligation bond projects are for the completion of plans and
8 specifications, land acquisition, site preparation, or for construction which will begin during
9 the fiscal year. It is presently anticipated that the listed projects will require the sale of
10 bonds or extension of lines of credit during the fiscal year after adoption of this Act.

11 Priority 3 general obligation bond projects are for the preparation of plans and
12 specifications, land acquisition, site preparation, or for construction and shall be limited to
13 funding for the portion of construction contracts which will not require cash expenditures
14 during the fiscal year. The projects in this category shall be considered future year projects
15 in the State's five year capital outlay plan. It is presently anticipated that the listed projects
16 will not require the sale of bonds or extension of lines of credit during the fiscal year.

17 Priority 4 general obligation bond projects are for the preparation of plans and
18 specifications, land acquisition, site preparation, or for construction and shall be limited to
19 funding for the portion of construction contracts which will not require cash expenditures
20 during the fiscal year. The projects in this category shall be considered future year projects
21 in the State's five year capital outlay plan. It is presently anticipated that the listed projects
22 will not require the sale of bonds or extension of lines of credit during the fiscal year.

23 Priority 5 general obligation bond funding shall be limited to funding for the portion
24 of construction contracts which will not require cash expenditures during the fiscal year.
25 These funds, when combined with previously sold bonds or with higher priority bonds on
26 lines of credit, or with funds appropriated from other sources, will provide sufficient
27 appropriated funds to award contracts. Non-cash lines of credit shall be required prior to the
28 award of these contracts.

1 In accordance with the cash management plan adopted pursuant to R.S. 48:251(D)
 2 and the provisions of Act 161 of the 1998 First Extraordinary Session, the Department of
 3 Transportation and Development is authorized to enter into contracts or agreements for
 4 projects approved pursuant to the Highway Priority Program, Airport Construction and
 5 Development Priority Program, Port Construction and Development Priority Program, and
 6 Statewide Flood Control Program for projects bid and awarded, authorized, or commenced
 7 during the fiscal year which do not require cash expenditures for the full contract or
 8 agreement amount.

46 Section 2. The expenditure of funds appropriated in this Act, except appropriations

47 made to non-profit economic development corporations, shall be in conformity to all existing

48 statutes relative to public bidding, contractual review, and R.S. 39:101 through 128 and any

1 other statutes affecting the capital outlay program for state government, state institutions,
2 and political entities. No contract shall be awarded for any project prior to the granting of
3 a line of credit or the sale of bonds by the State Bond Commission, determination by the
4 State Treasurer that cash funding is available in the Comprehensive Capital Outlay Escrow
5 Account for the project, or delivery of revenue bonds whose issuance is authorized in
6 Section 1 of this Act.

7 Section 3. Payment for projects specified in this Act must be made by warrant
8 submitted to the Division of Administration, Department of Transportation and
9 Development, the State Treasurer or other administering agency as provided in Section 8,
10 whichever is appropriate, only to the extent of funds required for immediate payment.
11 Copies of invoices or other supporting documentation shall be submitted with warrants. In
12 the event that any equipment included in this Act, is procured pursuant to the provisions of
13 the State Lease-Purchase Act, R.S. 39:1761 et seq., the amounts included in this Act for each
14 such piece of equipment shall not be appropriated. The provisions of R.S. 39:1771 which
15 require equipment to be leased under the State Lease-Purchase Act to be included in the
16 executive budget and approved by the Legislature through inclusion in the General
17 Appropriation Act shall be considered waived upon the inclusion of such equipment in this
18 Act. Projects contained in this Act may, at the direction of the Division of Administration
19 and with the approval of the State Bond Commission, alternatively be funded through
20 financing programs heretofore or hereafter provided by a public trust and public corporation
21 duly organized pursuant to R.S. 9:2341 et seq., having for its beneficiary the State and the
22 Louisiana Local Government Environmental Facilities and Community Development
23 Authority, pursuant to R.S. 33:4548.1 et seq.

24 Section 4. If at any time during the Fiscal Year 2016-2017, the Governor should
25 find, or the Joint Legislative Committee on the Budget or the Commissioner of
26 Administration should report to the Governor, that the receipts of the treasury are falling
27 short or appear likely to fall short of the revenue estimates for the fiscal year and that a cash
28 deficit is likely to be incurred, the Governor shall take such steps as deemed necessary to
29 prevent the occurrence of a cash deficit. In the event that a capital outlay project funded in

1 this Act falls under an agency which is abolished or for which funds are not appropriated in
2 the 2016-2017 General Appropriation Act, then the funds appropriated in this Act for such
3 capital outlay projects shall not be expended unless deemed necessary by the Governor to
4 protect life or property. In the event that legislation is enacted which transfers facilities or
5 programs for which projects are funded in this Act, on behalf of one agency, institution,
6 department, or management board to another agency, institution, department, or management
7 board, then the projects in this Act shall be deemed transferred also.

8 Section 5. All monies appropriated by this Act and any applicable funds of a prior
9 capital outlay budget act adopted by the Legislature shall be deposited by the State Treasurer
10 in the Comprehensive Capital Outlay Escrow Account, established by this Section, in the
11 state treasury. In accordance with R.S. 36:764, no later than 60 days following the end of
12 each quarter, the state treasurer shall report to the Joint Legislative Committee on the Budget
13 and the Commissioner of Administration, all funds contained in the Miscellaneous Fund of
14 the Comprehensive Capital Outlay Escrow Account. Notwithstanding any provisions
15 contained herein or other law to the contrary, any original issue premium or accrued interest
16 proceeds received pursuant to the sale of general obligation bonds shall remain on deposit
17 to the credit of the Bond Security and Redemption Fund until such time as they may be
18 utilized in accordance with U.S. Department of Treasury Regulations promulgated pursuant
19 to the Internal Revenue Code of 1986. All such monies shall be administered according to
20 the particular act pertaining to the fiscal year in which such monies were appropriated. If
21 it is determined by the Director of the Office of Facility Planning and Control, Division of
22 Administration, that the funds appropriated by this Act or any prior capital outlay budget act
23 are not sufficient to complete the projects contained in any capital outlay budget act, through
24 unavoidable deficiencies in appropriation, including administrative and legal requirements,
25 the Commissioner of Administration, subject to approval of the Joint Legislative Committee
26 on the Budget, may direct the use of interest earned from the investment of general
27 obligation bond or note proceeds in the Comprehensive Capital Outlay Escrow Account, not
28 to exceed an aggregate of five million dollars in any one fiscal year, for the purpose of
29 completing the projects contained in any capital outlay budget act and such money shall be

1 deemed appropriated in specific amounts necessary for such purpose. All appropriations in
2 this Act which are made as additions to funds for previously authorized projects shall be
3 included, for accounting purposes, in the account of said previously authorized projects. If
4 it is determined by the Director of the Office of Facility Planning and Control, Division of
5 Administration, that it is cost effective and practical to combine individual appropriations,
6 the Commissioner of Administration, subject to the approval of the Joint Legislative
7 Committee on the Budget, may direct that two or more appropriations or parts thereof may
8 be combined into a single project for accounting and audit purposes. The Commissioner of
9 Administration may direct that funding in the various statewide and/or multiple parish
10 projects for improvements for state facilities may be transferred to any project, in this Act
11 or any previous Capital Outlay Act, which require supplemental funding for improvements
12 for state facilities which qualify for funding through the various statewide and/or multiple
13 parish projects for improvements for state facilities. The Office of Facility Planning and
14 Control, Division of Administration is authorized to receive settlements and vendor rebates
15 not in excess of \$50,000 unless approved by the Joint Legislative Committee on the Budget,
16 and to add those receipts to the funding for projects in this Act or any previous Capital
17 Outlay Act for which project funds are received. The Office of Facility Planning and
18 Control, Division of Administration is authorized to receive insurance payments and are
19 hereby authorized to immediately repair facilities that suffer insurance losses without those
20 projects being included in the Act and shall report to the Joint Legislative Committee on the
21 Budget any expenditures from insurance funds received pursuant to this section. A portion,
22 as determined by the Commissioner of Administration and not to exceed one percent (1%),
23 of the funding for projects which qualify for the Percent for Art Program, may be transferred
24 from the qualifying project budgets, to the Department of Culture, Recreation and Tourism
25 for costs of acquiring art and administering the program. For all Percent for Art Program
26 projects in this or any previous capital outlay, up to ten percent (10%) of the aforementioned
27 one percent (1%) may be used for the costs of administering the projects.

1 Section 6. Prior to March 1, 2017, the Commissioner of Administration shall submit
2 to the Legislature a list of projects that are completed and the cash balances remaining in
3 each project.

4 Section 7. The Commissioner of Administration, with the approval of the Joint
5 Legislative Committee on the Budget, is authorized to supplement or substitute the
6 appropriations specified in this or previous capital outlay acts with any federal or other funds
7 which are or may become available and such funds shall be deemed appropriated in specific
8 amounts necessary for the purposes of this Act. Any funds received by the State Bond
9 Commission as a result of a prepayment of reimbursement contracts as authorized by law
10 and the Policy and Procedure for Reimbursement Contracts of the Department of Treasury,
11 Office of State Bond Commission, shall be deposited as set forth in such Policy and
12 Procedure and shall be deemed available and appropriated in specific amounts necessary for
13 the purposes of this Act pursuant to the procedure set forth in this section.

14 Section 8. All of the funds herein appropriated, except for appropriations made to
15 the Department of Military Affairs, the Legislature, the Louisiana Stadium and Exposition
16 District, the Department of Economic Development, the Coastal Protection and Restoration
