Dept./Agy.: Public Safety/LP Gas Commission	Analyst: Zachary Rau
Subject: LP Gas Commission Annual Permit Fees	

FUELS/LIQ PETROLEUM GAS EN INCREASE SD RV See Note Page 1 of 1
Provides relative to permits issued by the Liquefied Petroleum Gas Commission

Proposed law provides that all rules and regulations for the Liquefied Petroleum Gas Commission be available to the public on the commission's website. Proposed law adds an assessment totaling five one-hundredths of 1% on liquefied petroleum gas dealers who hold a Class VI permit for deposit in the Market Development Account. Proposed law states that the advisory board which oversees expenditures from the Market Development Account must have six members, allowing for two members each holding Class I, Class IV, and Class VI permits to be on the advisory board.

EXPENDITURE EXPLANATION

There is no anticipated direct material effect on governmental expenditures as a result of this measure. Language in proposed law stating that the rules and regulations adopted by the LP Gas Commission must be available to the public on the commission's website will have no fiscal impact, as the commission already has its rules and regulations available online.

REVENUE EXPLANATION

Proposed law adds an assessment totaling five one-hundredths of 1% of gross annual sales for liquefied petroleum gas dealers who hold a Class VI permit, in addition to the assessment levied on Class I and Class VI permits. Proceeds from the assessment will be deposited in an off-budget account administrated by the LP Gas Commission and used solely for the purpose of market development for liquefied petroleum gas in LA (Market Development Account). Proceeds to the Market Development Account will increase as a result of proposed law. The increase in revenues for the account is indeterminable because the amount of gross sales each permit holder will have annually varies.
