**EXPENDITURE EXPLANATION**

Proposed concurrent resolution may result in an indeterminable one-time increase in SGF to the extent that US Department of Agriculture's National Finance Center (NFC) requires payments or remittance of fees in association with meeting state officials to investigate taking over payroll and personnel services for state government. Representatives from the NFC indicated to the DOA that they may charge a fee for providing resources during the comprehensive evaluation period but did not provide an estimated cost.

Proposed concurrent resolution will result in a workload increase for the Division of Administration (DOA). DOA reports that the requested study can be completed with as few as three to four meetings with the NFC, or as much as six to eight weeks to provide for a comprehensive evaluation period. DOA reports the technical and functional resources required by proposed concurrent resolution can be absorbed within existing staff, resources and funding.

**REVENUE EXPLANATION**

There is no anticipated direct material effect on governmental revenues as a result of this measure.
