

SENATE BILL NO. 251

BY SENATORS LAFLEUR, MARTINY, MIZELL, PEACOCK, THOMPSON,  
WALSWORTH AND WHITE

1 AN ACT

2 To enact Chapter 8-L of Title 45 of the Louisiana Revised Statutes of 1950, to be comprised  
3 of R.S. 45:844.74 and 844.75, relative to communications; to prohibit the  
4 interference or blocking of certain communications and wireless connections; to  
5 provide certain terms, conditions, requirements, procedures, penalties and effects;  
6 and to provide for related matters.

7 Be it enacted by the Legislature of Louisiana:

8 Section 1. Chapter 8-L of Title 45 of the Louisiana Revised Statutes of 1950, to be  
9 comprised of R.S. 45:844.74 and 844.75, is hereby enacted to read as follows:

10 **CHAPTER 8-L. PROHIBITED "WI-FI HOTSPOT" BLOCKING**

11 **§844.74. Legislative findings**

12 **A. The legislature finds that Wi-Fi is a technology that enables low-**  
13 **power electronic devices, such as laptop computers, tablets, video game**  
14 **consoles, and smartphones, to connect to the Internet and to each other through**  
15 **wireless network access points. Such "access points" include a Wi-Fi router and**  
16 **also mobile devices that can serve as a wireless access point, known as a**  
17 **"hotspot".**

18 **B. The legislature concurs with statements from the Federal**  
19 **Communications Commission (FCC) that the "Internet is a vital platform for**  
20 **economic growth, innovation, competition, and free expression. Wi-Fi is an**  
21 **essential access ramp to that platform. Wi-Fi networks have proliferated in**  
22 **places accessible to the public, such as restaurants, coffee shops, malls, train**  
23 **stations, hotels, airports, convention centers, and parks. Consumers also can**  
24 **establish their own Wi-Fi networks by using FCC-authorized mobile hotspots**

1 and their wireless data plans to connect Wi-Fi enabled devices to the Internet.  
 2 The growing use of technologies that unlawfully block consumers from creating  
 3 their own Wi-Fi networks via their personal hotspots unjustifiably prevents  
 4 consumers from enjoying services they have paid for and stymies the  
 5 convenience and innovation associated with Wi-Fi Internet access."

6 C. The legislature finds that consumers who purchase cellular data plans  
 7 should be able to use them without fear that their personal Internet connection  
 8 will be unlawfully blocked by others, including blocking at locations such as  
 9 conference centers, hotels, and trade shows.

10 D. The legislature further finds that for these reasons it is an appropriate  
 11 exercise of the police power of the state to take action to prevent such unlawful  
 12 activity.

13 §844.75. Prohibited "Hotspot" blocking

14 A. No person shall without legal authority knowingly interfere with,  
 15 prevent, disable, or block the lawful creation of a Wi-Fi network via a personal  
 16 hotspot.

17 B. Whoever violates the provisions of this Section shall be fined a civil  
 18 penalty of not more than ten thousand dollars. Each day on which a violation  
 19 occurs shall be considered a separate offense.

20 C. The penalties provided by this Section shall be in addition to any  
 21 other civil or criminal penalty, action, or proceeding otherwise authorized by  
 22 law.
