

RÉSUMÉ DIGEST

ACT 616 (SB 283)

2016 Regular Session

Hewitt

Prior law provided that a military-trained applicant shall be issued a license, certification, or registration by the state engineering board if the applicant has received a military occupation specialty in engineering.

New law provides that armed forces personnel who have received military training in engineering and have a military occupation specialty in engineering may apply for state certification as a professional engineer but must satisfy the certifying board's minimum requirement standards.

Effective August 1, 2016.

(Amends R.S. 37:3651(A)(1))
