

RÉSUMÉ DIGEST

ACT 40 (HB 196)

2016 Regular Session

Leger

Existing law provides for the operation of video draw poker devices at qualified truck stop facilities. Existing law further provides that the number of video draw poker devices placed at a qualified truck stop facility shall be based on the average monthly fuel sales calculated quarterly for the first year of operation and, thereafter, shall be based upon the average monthly fuel sales calculated annually using a calendar year as follows:

- (1) 100,000 gallons of fuel of which 40,000 gallons are diesel - not more than 50 devices.
- (2) 75,000 gallons of fuel of which 30,000 gallons are diesel - not more than 40 devices.
- (3) 50,000 gallons of fuel of which 10,000 gallons are diesel - not more than 35 devices.

New law provides that a qualified truck stop facility, except a qualified truck stop facility located in Orleans Parish, which complies or has complied with the fuel sales requirements of existing law for five consecutive years shall thereafter be permitted to retain the number of devices it operated during that same consecutive five-year period provided it continues to meet the fuel sales requirements of 50,000 gallons of fuel of which 10,000 are diesel.

New law authorizes the Louisiana Gaming Control Board to adopt rules to recognize alternative fuel sources to satisfy the requirements regarding fuel sales provided by law.

Effective August 1, 2016.
