New law retains prior law but makes a technical change by relocating the requirement through adding cystic fibrosis to the list of required tests and deleting the current language.

New law requires the La. Dept. of Health to develop and maintain the following information regarding Krabbe disease on its website:

- (1) An explanation of Krabbe disease symptoms, diagnosis, and treatment options.
- (2) Information on relevant state agency and nonprofit resources, parent support groups, and available Medicaid waiver services.

New law provides that the Act shall be known as "The Anniston Bazar Act".

Effective subject to specific appropriation by the legislature.
