

RÉSUMÉ DIGEST

ACT 676 (HB 1052)

2016 Regular Session

Henry

New law provides for the creation of a pilot program in the 24th JDC (Jefferson Parish).

New law authorizes the 24th JDC, by rule adopted by a majority of the judges sitting en banc, to establish the Swift and Certain Probation Pilot Program and to provide funding for any expenses related to the administration and operation of this program.

New law further provides that any funds realized from a reduction in the amount of time a person would have been required to serve in prison if the defendant had not been placed in the program shall be appropriated to the Dept. of Public Safety and Corrections and shall be used to defray the additional operational expenses of probation and parole and reentry initiatives.

New law provides that the terms of the probation pilot program shall be decided by the presiding judge or judges, and provides that sanctions imposed pursuant to this program shall be served without diminution of sentence or credit for time served.

New law provides that when a case is assigned to the probation pilot program, with the consent of the district attorney, the court may place the defendant on probation for a period of not less than one year and not more than eight years if the court determines that successful completion of the program may require that period of probation to exceed the five-year limit provided in existing law. If necessary to insure successful completion of the program, the court may extend the duration of the probation period.

Effective upon signature of governor (June 17, 2016).
