ACT No. 16

2016 Second Extraordinary Session

HOUSE BILL NO. 2

BY REPRESENTATIVE ABRAMSON

1 AN ACT

2 To provide with respect to the capital outlay budget and the capital outlay program for state
3 government, state institutions, and other public entities; to provide for the designation
4 of projects and improvements; to provide for the financing thereof making
5 appropriations from certain sources; and to provide for related matters.

6 Be it enacted by the Legislature of Louisiana:

7 Section 1. The following sums or so much thereof as may be necessary are hereby
8 appropriated out of any monies in the state treasury from the sources specified, from federal
9 funds and self-generated revenues belonging to the state of Louisiana and/or collected by
10 boards, commissions, departments, and agencies thereof, all for making capital outlay and
11 for the purposes and in the amounts specified herein for the Fiscal Year commencing July
12 1, 2016, and ending June 30, 2017, subject to the conditions thereafter provided:

13 A project with funding payable from General Obligation Bonds Priority 1 indicates that
14 the funding for the project includes the reauthorization of funding which was previously on
15 a line of credit granted by the State Bond Commission in Fiscal Year 2015-2016. As used
16 in this Section, the term "general obligation bonds" means state general obligation bonds or
17 other evidences of indebtedness payable from the Bond Security and Redemption Fund. The
18 amount set forth in this Section opposite each project, or so much thereof as may be
19 necessary, is hereby appropriated and payable from the proceeds available from the sale of
20 general obligation bonds, unless a different source of funding is indicated. Where such a
21 different source of funding is indicated, the corresponding amount set forth, or so much
22 thereof as may be necessary, is hereby appropriated and payable from the source of funding

1 indicated; provided, however, amounts appropriated and payable from federal funds may be
2 encumbered or expended only to the extent such amounts shall have been committed or
3 received. Pursuant to the provisions of R.S. 39:82, funds for planning, acquisition,
4 construction, and major repair projects appropriated by this Act may be retained until
5 completion of the project, even if no bona fide liability exists on the last day of the fiscal
6 year.

7 This Act shall constitute the comprehensive state capital outlay budget for the 2016-
8 2017 Fiscal Year. Projects set forth which are payable from the proceeds available from the
9 sale of general obligation bonds shall have the priorities as indicated. The Request for Line
10 of Credit form used by the attorney general and Bond Counsel in evaluating Louisiana
11 Constitutional, Internal Revenue Code, and applicable income tax regulations shall be filed
12 with the commissioner of administration, State Bond Commission, and state attorney
13 general. No general obligation bonds shall be sold, nor cash lines of credit granted to fund
14 any lower priority project prior to the sale of general obligation bonds or the granting of cash
15 lines of credit to fund all higher priority projects (the "general rule"), except as hereinafter
16 provided. This prohibition against funding a lower priority project shall not apply upon a
17 showing of an impossibility or impracticality either to proceed with all unfunded higher
18 priority projects or to proceed with the funding of such projects or any part thereof through
19 the issuance of general obligation bonds for any reason. Such showing shall be stated in
20 reasonable detail in a certificate or certificates signed by the state agency responsible for
21 administering the funding, and filed with the commissioner of administration and the State
22 Bond Commission (hereinafter referred to as "the Commission"). Upon a determination by
23 the Commission that proceeding with such a project or the funding thereof through the
24 issuance of general obligation bonds is impractical or impossible, the Commission may then
25 proceed with the sale of general obligation bonds or the granting of cash lines of credit
26 without regard to the priority of the unfunded projects determined to be impossible or
27 impractical.

28 Upon recommendation by the state agency responsible for administering the funding,
29 if it is determined at any time that proceeding with the project or with the funding thereof
30 is no longer impossible or impractical, the State Bond Commission may rescind the
31 certificate of impossibility or impracticality and may proceed with the project or with the

1 issuance of general obligation bonds or the granting of cash lines of credit to fund the
2 project. Alternatively, the Interim Emergency Board (hereinafter referred to as "the Board"),
3 upon reviewing certificates as described above and determining that proceeding with such
4 project or the funding thereof through the issuance of general obligation bonds is impossible
5 or impractical, may designate a lower priority for such project. The Board's determination
6 and lower priority designation shall be submitted to the members of the legislature for their
7 approval in accordance with the provisions of Chapter 3-B of Subtitle I of Title 39 of the
8 Louisiana Revised Statutes of 1950. In accordance with the provisions of Chapter 3-B of
9 Subtitle I of Title 39 of the Louisiana Revised Statutes of 1950, whenever at the written
10 request of the appropriate legislators and agency, the Board determines that an adjustment
11 to a project description originally set forth in such capital budget adopted by the legislature
12 for a current fiscal year is necessary to correct a mistake in a project description, clarify a
13 description, change the scope of a description, or make any other adjustment the Board
14 deems necessary to implement the purpose of the project, such adjustment shall become
15 effective only upon the approval by majority vote of the elected members of each house of
16 the legislature in the manner provided for in Chapter 3-B of Subtitle I of Title 39 of the
17 Louisiana Revised Statutes of 1950.

18 If such approval is granted, notification by the chair or secretary of the Board of the
19 results of the balloting shall be transmitted to the State Bond Commission, which may then
20 proceed with the sale of general obligation bonds or the granting of cash lines of credit for
21 each change approved upon request of the commissioner of administration in accordance
22 with the general rule.

23 With respect to Priorities 1 through 5, a lower priority project may be moved to a
24 higher priority only upon a showing of an emergency or other cause not reasonably
25 anticipated by the legislature, which shall be stated in reasonable detail in a certificate signed
26 by the head of the appropriate department, political subdivision, or agency and filed with the
27 commissioner of administration and the Board. Upon a determination by the Board that such
28 project should be moved to a higher priority because of an emergency or other cause not
29 reasonably anticipated by the legislature, the Board shall designate a higher priority to the
30 project. The matter then shall be submitted to and be subject to the same approval by the
31 members of the legislature in the manner previously indicated in this Section. If such

1 approval is granted, notification by the chair or secretary of the board of the change of
2 priority shall be transmitted to the State Bond Commission, which then upon request of the
3 commissioner of administration, may proceed with the sale of general obligation bonds or
4 the granting of cash lines of credit in accordance with the general rule. As to projects within
5 a priority, the State Bond Commission acting on requests submitted by the commissioner of
6 administration shall determine when such project, or phases thereof, shall be funded. In
7 making such determination, the State Bond Commission shall consider the amount of
8 proceeds of general obligation bonds to be made available in light of money and capital
9 market conditions; the expenditure requirements of the project; the time required for
10 architectural plans and drawings, public bidding, and site acquisition and preparation;
11 availability of receipt of federal monies; litigation affecting the undertaking or completion
12 of a project; federal tax laws and regulations regarding the sale of municipal bonds; and
13 other items of a similar nature bearing upon the possibility or the necessity to commence a
14 project or any particular phase thereof.

15 Any other provision of this Act to the contrary notwithstanding, projects described in
16 Priority 5 of this Act shall not be moved to a higher priority except upon one of the
17 following conditions: (1) Funding is necessary to complete or additionally fund a project
18 located elsewhere in the Capital Outlay Act. Determination of such condition shall be made
19 by the head of the appropriate department or agency by means of a certificate to that effect
20 filed with the Interim Emergency Board, who shall, by mail ballot, request approval of such
21 change and if approved by a majority of each house of the legislature it shall be funded, or
22 (2) unless required by an emergency or other cause not reasonably anticipated by the
23 legislature, to be in accordance with procedures set forth in this Section. However, the State
24 Bond Commission may authorize a non-cash line of credit for any project in Priority 5 which
25 represents that portion of construction contracts which were let during a previous fiscal year,
26 or construction contracts which will be let during the current fiscal year, but which will not
27 require cash expenditures during the year. Such non-cash lines of credit, when combined
28 with previously sold bonds or with higher priority bonds or lines of credit, or with funds
29 appropriated from other sources, will provide sufficient appropriated funds to award
30 equipment or construction contracts. Contracts shall not be awarded without approval of the
31 division of administration.

1 Upon approval by the State Bond Commission, and subject to compliance with its
2 policies and procedures and the procedures set forth herein, a line of credit providing for the
3 use of funds in anticipation of the sale of general obligation bonds may be granted to the
4 appropriate administering agency or department from the Comprehensive Capital Outlay
5 Escrow Account, or if there is not a sufficient amount available in such account, from other
6 available state cash in the state treasury, for capital improvement projects for which bond
7 proceeds are appropriated by a current capital budget, prior to the actual issuance of bonds
8 for such projects, unless the attorney general advises that an impediment exists to the valid
9 issuance of the bonds on the date such line of credit is granted.

10 All bonds that are to be repaid, in whole or in part, by revenues generated by the project
11 shall be designated as "Reimbursement Bonds". The State Bond Commission shall enter
12 into such agreements as are necessary to provide that the agency or subdivision, whose
13 project is reimbursable, shall pay the bond debt costs into the Bond Security and Redemption
14 Fund. Such costs may be paid annually or at the end of the term of the bonds issued as
15 determined by the State Bond Commission.

16 Priority 1 general obligation bond funding shall be limited to:

17 (1) Projects and amounts which were previously authorized by Act 26 of the 2015
18 Regular Session of the Legislature; and which were granted cash lines of credit by the State
19 Bond Commission. The bonds to fund these projects were not sold in Fiscal Year 2015-
20 2016.

21 (2) The reauthorization of the portion of the outstanding Fiscal Year 2015-2016
22 Priority 5 Non-Cash Lines of Credit for projects which will require cash expenditures in
23 Fiscal Year 2016-2017 and therefore must be converted to Cash Lines of Credit in Fiscal
24 Year 2016-2017.

25 (3) Commitments made in the Higher Education Desegregation Settlement Agreement.

26 Priority 2 general obligation bond projects are for the completion of plans and
27 specifications, land acquisition, site preparation, or for construction which will begin during
28 the fiscal year. It is presently anticipated that the listed projects will require the sale of
29 bonds or extension of lines of credit during the fiscal year after adoption of this Act.

30 Priority 3 general obligation bond projects are for the preparation of plans and
31 specifications, land acquisition, site preparation, or for construction and shall be limited to

1 funding for the portion of construction contracts which will not require cash expenditures
 2 during the fiscal year. The projects in this category shall be considered future year projects
 3 in the state's five-year capital outlay plan. It is presently anticipated that the listed projects
 4 will not require the sale of bonds or extension of lines of credit during the fiscal year.

5 Priority 4 general obligation bond projects are for the preparation of plans and
 6 specifications, land acquisition, site preparation, or for construction and shall be limited to
 7 funding for the portion of construction contracts which will not require cash expenditures
 8 during the fiscal year. The projects in this category shall be considered future year projects
 9 in the state's five-year capital outlay plan. It is presently anticipated that the listed projects
 10 will not require the sale of bonds or extension of lines of credit during the fiscal year.

11 Priority 5 general obligation bond funding shall be limited to funding for the portion
 12 of construction contracts which will not require cash expenditures during the fiscal year.
 13 These funds, when combined with previously sold bonds or with higher priority bonds on
 14 lines of credit, or with funds appropriated from other sources, will provide sufficient
 15 appropriated funds to award contracts. Non-cash lines of credit shall be required prior to the
 16 award of these contracts.

17 In accordance with the cash management plan adopted pursuant to R.S. 48:251(D) and
 18 the provisions of Act 161 of the 1998 First Extraordinary Session, the Department of
 19 Transportation and Development is authorized to enter into contracts or agreements for
 20 projects approved pursuant to the Highway Priority Program, Airport Construction and
 21 Development Priority Program, Port Construction and Development Priority Program, and
 22 Statewide Flood Control Program for projects bid and awarded, authorized, or commenced
 23 during the fiscal year which do not require cash expenditures for the full contract or
 24 agreement amount.

16 Section 2. The expenditure of funds appropriated in this Act, except appropriations
 17 made to nonprofit economic development corporations, shall be in conformity to all existing
 18 statutes relative to public bidding, contractual review, and R.S. 39:101 through 128 and any
 19 other statutes affecting the capital outlay program for state government, state institutions,
 20 and political entities. No contract shall be awarded for any project prior to the granting of
 21 a line of credit or the sale of bonds by the State Bond Commission, determination by the
 22 state treasurer that cash funding is available in the Comprehensive Capital Outlay Escrow
 23 Account for the project, or delivery of revenue bonds whose issuance is authorized in
 24 Section 1 of this Act.

25 Section 3. Payment for projects specified in this Act must be made by warrant
 26 submitted to the division of administration, Department of Transportation and Development,
 27 the state treasurer or other administering agency as provided in Section 8, whichever is
 28 appropriate, only to the extent of funds required for immediate payment. Copies of invoices
 29 or other supporting documentation shall be submitted with warrants. In the event that any
 30 equipment included in this Act, is procured pursuant to the provisions of the State Lease-
 31 Purchase Act, R.S. 39:1761 et seq., the amounts included in this Act for each such piece of
 32 equipment shall not be appropriated. The provisions of R.S. 39:1771 which require
 33 equipment to be leased under the State Lease-Purchase Act to be included in the executive
 34 budget and approved by the legislature through inclusion in the General Appropriation Act
 35 shall be considered waived upon the inclusion of such equipment in this Act. Projects
 36 contained in this Act may, at the direction of the division of administration and with the

1 approval of the State Bond Commission, alternatively be funded through financing programs
2 heretofore or hereafter provided by a public trust and public corporation duly organized
3 pursuant to R.S. 9:2341 et seq., having for its beneficiary the state and the Louisiana Local
4 Government Environmental Facilities and Community Development Authority, pursuant to
5 R.S. 33:4548.1 et seq.

6 Section 4. If at any time during the Fiscal Year 2016-2017, the governor should find,
7 or the Joint Legislative Committee on the Budget or the commissioner of administration
8 should report to the governor, that the receipts of the treasury are falling short or appear
9 likely to fall short of the revenue estimates for the fiscal year and that a cash deficit is likely
10 to be incurred, the governor shall take such steps as deemed necessary to prevent the
11 occurrence of a cash deficit. In the event that a capital outlay project funded in this Act falls
12 under an agency which is abolished or for which funds are not appropriated in the 2016-2017
13 General Appropriation Act, then the funds appropriated in this Act for such capital outlay
14 projects shall not be expended unless deemed necessary by the governor to protect life or
15 property. In the event that legislation is enacted which transfers facilities or programs for
16 which projects are funded in this Act, on behalf of one agency, institution, department, or
17 management board to another agency, institution, department, or management board, then
18 the projects in this Act shall be deemed transferred also.

19 Section 5. All monies appropriated by this Act and any applicable funds of a prior
20 capital outlay budget act adopted by the legislature shall be deposited by the state treasurer
21 in the Comprehensive Capital Outlay Escrow Account, established by this Section, in the
22 state treasury. In accordance with R.S. 36:764, no later than sixty days following the end
23 of each quarter, the state treasurer shall report to the Joint Legislative Committee on the
24 Budget and the commissioner of administration, all funds contained in the Miscellaneous
25 Fund of the Comprehensive Capital Outlay Escrow Account. Notwithstanding any
26 provisions contained herein or other law to the contrary, any original issue premium or
27 accrued interest proceeds received pursuant to the sale of general obligation bonds shall
28 remain on deposit to the credit of the Bond Security and Redemption Fund until such time
29 as they may be utilized in accordance with U.S. Department of the Treasury Regulations
30 promulgated pursuant to the Internal Revenue Code of 1986. All such monies shall be
31 administered according to the particular act pertaining to the fiscal year in which such

1 monies were appropriated. If it is determined by the director of the office of facility
2 planning and control, division of administration, that the funds appropriated by this Act or
3 any prior capital outlay budget act are not sufficient to complete the projects contained in
4 any capital outlay budget act, through unavoidable deficiencies in appropriation, including
5 administrative and legal requirements, the commissioner of administration, subject to
6 approval of the Joint Legislative Committee on the Budget, may direct the use of interest
7 earned from the investment of general obligation bond or note proceeds in the
8 Comprehensive Capital Outlay Escrow Account, not to exceed an aggregate of five million
9 dollars in any one fiscal year, for the purpose of completing the projects contained in any
10 capital outlay budget act and such money shall be deemed appropriated in specific amounts
11 necessary for such purpose. All appropriations in this Act which are made as additions to
12 funds for previously authorized projects shall be included, for accounting purposes, in the
13 account of the previously authorized projects. If it is determined by the director of the office
14 of facility planning and control, division of administration, that it is cost effective and
15 practical to combine individual appropriations, the commissioner of administration, subject
16 to the approval of the Joint Legislative Committee on the Budget, may direct that two or
17 more appropriations or parts thereof may be combined into a single project for accounting
18 and audit purposes. The commissioner of administration may direct that funding in the
19 various statewide and/or multiple parish projects for improvements for state facilities may
20 be transferred to any project, in this Act or any previous Capital Outlay Act, which require
21 supplemental funding for improvements for state facilities which qualify for funding through
22 the various statewide and/or multiple parish projects for improvements for state facilities.
23 The office of facility planning and control, division of administration is authorized to receive
24 settlements and vendor rebates not in excess of \$50,000 unless approved by the Joint
25 Legislative Committee on the Budget, and to add those receipts to the funding for projects
26 in this Act or any previous Capital Outlay Act for which project funds are received. The
27 office of facility planning and control, division of administration is authorized to receive
28 insurance payments and are hereby authorized to immediately repair facilities that suffer
29 insurance losses without those projects being included in the Act and shall report to the Joint
30 Legislative Committee on the Budget any expenditures from insurance funds received
31 pursuant to this section. A portion, as determined by the commissioner of administration and

1 not to exceed one percent (1%), of the funding for projects which qualify for the Percent for
2 Art Program, may be transferred from the qualifying project budgets, to the Department of
3 Culture, Recreation and Tourism for costs of acquiring art and administering the program.
4 For all Percent for Art Program projects in this or any previous capital outlay, up to ten
5 percent (10%) of the aforementioned one percent (1%) may be used for the costs of
6 administering the projects.

7 Section 6. Prior to March 1, 2017, the commissioner of administration shall submit
8 to the legislature a list of projects that are completed and the cash balances remaining in each
9 project.

10 Section 7. The commissioner of administration, with the approval of the Joint
11 Legislative Committee on the Budget, is authorized to supplement or substitute the
12 appropriations specified in this or previous capital outlay acts with any federal or other funds
13 which are or may become available and such funds shall be deemed appropriated in specific
14 amounts necessary for the purposes of this Act. Any funds received by the State Bond
15 Commission as a result of a prepayment of reimbursement contracts as authorized by law
16 and the policy and procedure for reimbursement contracts of the Department of Treasury,
17 office of State Bond Commission, shall be deposited as set forth in such policy and
18 procedure and shall be deemed available and appropriated in specific amounts necessary for
19 the purposes of this Act pursuant to the procedure set forth in this section.

20 Section 8. All of the funds herein appropriated, except for appropriations made to
21 the Department of Military Affairs, the Legislature, the Louisiana Stadium and Exposition
22 District, the Department of Economic Development, the Coastal Protection and Restoration
23 Authority, the Division of Administration for Supplemental State Funds for Local
24 Government Assistance Program, the Division of Administration for the Community Water
25 Enrichment Program or the Department of Transportation and Development, shall be
26 considered as having been appropriated directly to the Office of Facility Planning and
27 Control, Division of Administration, and all projects herein authorized and funded shall be
28 subject to the provisions of R.S. 39:101 through 128. All of the funds appropriated in the
29 Capital Outlay Act under the name of non-state entities shall be administered by the Office
30 of Facility Planning and Control, Division of Administration, under cooperative endeavor
31 agreements. All cooperative endeavor agreements for non-state entities shall be prepared

1 by the Office of Facility Planning and Control and the Commissioner of Administration is
2 hereby authorized and directed to effectuate any necessary transfer of funds from the
3 Department of Justice to the Office of Facility Planning and Control in order to accomplish
4 this purpose. However, all cooperative endeavor agreements between the Department of
5 Transportation and Development and non-state entities entered into prior to the passage of
6 this Act shall continue to be administered by the Department of Transportation and
7 Development. Cooperative endeavor agreements entered into pursuant to this Act, and
8 approved by the Commissioner of Administration or his designee, or the Secretary of the
9 Department of Transportation and Development for projects appropriated to or administered
10 by the Department of Transportation and Development, shall not be required to be submitted
11 to the Division of Administration, Office of Contractual Review. For all projects in the
12 Capital Outlay Act or a previous Capital Outlay Act which are appropriated to the Office of
13 Facility Planning and Control, Division of Administration, including those administered by
14 cooperative endeavor agreements, up to six percent of each line-item may be used for costs
15 of administering the projects. For all projects in Capital Outlay Act or a previous Capital
16 Outlay Act appropriated to the Department of Transportation and Development, up to six
17 percent of each line-item may be used for costs of administering the projects, or for field
18 engineering/construction supervision. Line-item general obligation bond projects
19 appropriated to the Department of Transportation and Development in the Capital Outlay
20 Act or a previous Capital Outlay Act shall be authorized to draw Transportation Trust Funds
21 from the Highway Program appropriation, for supplemental funding on overruns in excess
22 of the original estimated project cost as determined by the Department of Transportation and
23 Development, provided however that said projects are in the state or federal highway system
24 and in the priority program, and the overrun is less than \$50,000. Any such overrun of
25 \$50,000 or more must be approved by the Joint Legislative Committee on the Budget.
26 Furthermore, all ports, levee districts and other non-state entities must have a fully executed
27 cooperative endeavor agreement, from the Office of Facility Planning and Control,
28 Department of Transportation and Development, or the State Treasurer, whichever is
29 appropriate, before entering into any contracts which obligate state funding and must follow
30 all laws pertaining to public bidding. If a port, levee district or other non-state entity enters
31 into a contract prior to receipt of funding, or prior to execution of a cooperative endeavor

1 agreement, then payments under such contracts are prohibited from capital outlay
2 appropriations, and are the sole responsibility of the port, levee district, or other non-state
3 entity. Notwithstanding the provisions of this Act, the Capital Outlay Act, or any previous
4 capital outlay act, contracts may be entered into for the Atchafalaya Basin Protection and
5 Enhancement Kemper Williams project in St. Mary Parish prior to a cooperative endeavor
6 agreement being entered into with the state. Notwithstanding anything contained in this Act,
7 the Capital Outlay Act, or any previous capital outlay act to the contrary or any other
8 provision of law, contracts may be entered into for the Youngsville Sports Complex project
9 in Lafayette Parish, prior to receipt of funding and prior to execution of the cooperative
10 endeavor agreement and the state is authorized to financially participate in obligations
11 created by such contracts. Notwithstanding the provisions of R.S. 39:112(E)(2), the project
12 for Independence, Independence Area Community Pavilion, Planning and Construction,
13 shall be exempt from all local match requirements. Notwithstanding anything contained in
14 this Act or the Capital Outlay Act to the contrary or any other provision of law, the scope
