

## RÉSUMÉ DIGEST

**ACT 466 (HB 1156)**

**2016 Regular Session**

**Nancy Landry**

Existing law requires the governing authority of each local public elementary and secondary school, the state special schools, and the schools and programs administered through the special school district to establish salary schedules for teachers and other school employees.

Existing law prohibits salary reductions in any school year below the amount paid during the previous school year. Further prohibits salary reductions during an academic year. Provides that such limitations on salary reductions do not apply in certain circumstances. New law adds to this list of exceptions the elimination, discontinuance, or reorganization of the position to which the employee is assigned that results in the employee working fewer hours, days, or months. Provides that in such case, the employee's salary shall not be reduced during an academic year, but after that year, the salary is determined in accordance with the salary schedule established pursuant to existing law.

Effective August 1, 2016.
