Requires approval for the use of a toxicant intended to control or eradicate outlaw quadrupeds

Proposed law prohibits permitting or registering for use of toxicant for the control or eradication of outlaw quadrupeds without the approval of both the secretary of wildlife and fisheries and commissioner of agriculture. Proposed law requires the secretary and commissioner to consider, based upon sufficient sound scientific data provided by the manufacture or by independent sources, the effects of unintended intoxication of other wild animals and secondary intoxication of predators and scavengers.

EXPENDITURE EXPLANATION

There is no anticipated direct material effect on governmental expenditures as a result of this measure. The Louisiana Department of Agriculture and Forestry (LDAF) has had primacy for pesticides for the state since 1986 including use, misuse, enforcement, certification and registration. Proposed legislation would only require LDAF to consult with the Louisiana Department of Wildlife and Fisheries when a toxicant is used to control or eradicate outlaw quadrupeds.

REVENUE EXPLANATION

There is no anticipated direct material effect on governmental revenues as a result of this measure.
