Requires instruction in litter prevention and awareness for public school students in certain grades

Proposed legislation requires instruction in litter prevention and awareness to be provided to each public school student in kindergarten through grade 5; including charter schools. Instruction may be integrated into existing science curriculum and may include materials created and developed for students in Louisiana.

EXPENDITURE EXPLANATION

There may be costs to local school districts to develop instructional materials. However, costs are not anticipated to be significant. Curriculum and instructional materials may be found on the internet through organizations such as Keep America Beautiful, or from other states which have implemented similar programs. While the LFO has not identified a statewide program that may provide such materials, it has identified individual parishes with litter awareness and prevention initiatives which may offer materials that meet the needs of teachers in other parishes.

REVENUE EXPLANATION

There is no anticipated direct material effect on governmental revenues as a result of this measure.
