

2017 Regular Session

SENATE RESOLUTION NO. 44

BY SENATORS JOHNS, ALARIO, CHABERT AND MORRISH

SENATE. Recognizes Wednesday, April 26, 2017, as the fifth annual Liquefied Natural Gas Day at the state capitol and expresses support of the Louisiana Energy Export Association, LNG exports, and the streamlining and expedition of permit approval for pending export facilities.

A RESOLUTION

To recognize Wednesday, April 26, 2017, as the fifth annual Liquefied Natural Gas (LNG) Day at the state capitol and express support of the Louisiana Energy Export Association, LNG exports, and the streamlining and expedition of permit approval for pending export facilities.

WHEREAS, plentiful natural gas supplies and unprecedented advances in technology have provided a historic opportunity for the United States to achieve energy self-sufficiency while creating jobs and wealth for our economy; and

WHEREAS, pioneering exploration and extraction methods have opened such vast natural gas resources to development in areas, such as the Haynesville Shale, that demand on United States natural gas markets can grow with little impact on domestic prices; and

WHEREAS, the Department of Energy estimates domestic natural gas production levels will increase by over 50% by 2050; and

WHEREAS, global demand for liquefied natural gas is expected to grow significantly over the next two decades, with Louisiana poised to play a major role in meeting such demand; and

WHEREAS, expanding markets for United States natural gas is consistent with national trade and security policy, because failure to expand liquefied natural gas exports

1 would force our allies to continue to rely on regimes that are hostile to United States
2 interests for their energy needs; and

3 WHEREAS, over 100 cargoes of LNG have already departed for international
4 markets from Louisiana facilities; and

5 WHEREAS, continued growth in liquefied natural gas exports will create tens of
6 thousands of construction and operations jobs in Louisiana; and

7 WHEREAS, the Louisiana Energy Export Association was formed in 2017 as a
8 nonprofit grassroots organization to serve as a unifying voice for Louisiana's LNG exporters
9 with the mission of supporting the exports of natural gas and educating public and policy
10 leaders of the economic benefits LNG exports will bring to the United States; and

11 WHEREAS, Louisiana Energy Export Association member companies plan to invest
12 over \$60 billion in Louisiana over the next decade, creating over 20,000 jobs, economic
13 opportunity, and expanding the Louisiana tax base; and

14 WHEREAS, liquefied natural gas exports would provide incentives for new
15 infrastructure investments worth billions of dollars and generate royalties and local tax
16 revenues directly in communities across the state; and

17 WHEREAS, a diverse coalition of Louisiana LNG producers, energy and petroleum
18 companies, business groups, service companies, and others have expressed their support for
19 LNG exports.

20 THEREFORE, BE IT RESOLVED that the Senate of the Legislature of Louisiana
21 does hereby recognize Wednesday, April 26, 2017, as the fifth annual Liquefied Natural Gas
22 Day at the state capitol and express support of the Louisiana Energy Export Association,
23 LNG exports, and the streamlining and expedition of permit approval for pending export
24 facilities so that the economic benefits of LNG exports can be magnified throughout the state
25 of Louisiana, as well as the United States.

26 BE IT FURTHER RESOLVED that a copy of this Resolution shall be transmitted
27 to the secretary of the United States Senate and the clerk of the United States House of
28 Representatives and to each member of the Louisiana delegation to the United States
29 Congress.

The original instrument and the following digest, which constitutes no part of the legislative instrument, were prepared by Jerry J. Guillot.
