EXPENDITURE EXPLANATION

The proposed legislation will likely result in an indeterminable decrease in SGF expenditures in the Department of Public Safety and Corrections - Correction Services if certain incarcerated defendants are authorized to appear in court by way of simultaneous audio-visual transmission. The department reports the proposed law will reduce the number of court trips for offenders to appear in court and any potential cost for equipment / technology incurred would be incidental. Proposed law is permissive, not mandatory, and will not require an expenditure to outfit individual unequipped courts to facilitate simultaneous audio-visual transmission.

REVENUE EXPLANATION

There is no anticipated direct material effect on governmental revenues as a result of this measure.
