HB 306 Reengrossed

2017 Regular Session

Johnson

Abstract: Requires the base of reimbursement by managed care organizations for prescription drugs to be at least equal to the legacy Medicaid rate.

Present law prohibits a managed care organization (MCO) from paying a local pharmacy a per-prescription reimbursement at a rate less than the legacy Medicaid rate unless its contract with the La. Dept. of Health (LDH) provides for a reimbursement dispute process.

Proposed law removes the option to include a reimbursement dispute process to allow a reimbursement rate less than the legacy Medicaid rate.

Present law authorizes an MCO to negotiate the ingredient cost reimbursement in its contracts with providers.

Proposed law repeals present law.

Present law requires any contract between LDH and an MCO that includes provisions for pharmacy reimbursement to provide for a reimbursement dispute process for local pharmacies.

Proposed law repeals present law.

Present law requires the full cost of implementing and performing the provisions of present law to be the responsibility of LDH through a reallocation of existing budget resources and not through additional appropriations.

Proposed law repeals present law.

Effective October 1, 2017.

(Amends R.S. 46:460.36(D); Repeals R.S. 46:460.36(B), (C), and (E))
