EXPENDITURE EXPLANATION

Proposed law will likely result in a decrease in SGF expenditures for the Department of Public Safety and Corrections - Correction Services (DPSC). Proposed law will allow granting parole to certain inmates after completing rehabilitation and workforce development programs as directed by the committee on parole on or before nine (9) months after the parole hearing or the most recent recent reconsideration of the prisoner's case. The per offender savings is \$21.76 (\$24.39 per day - \$2.63 parole supervision per day) per day or \$7,942.40 annually per offender in local facilities. To the extent that offenders are released from state facilities, the savings per day per offender is \$49.27 (\$51.90 per day - \$2.63 parole supervision per day) or \$17,983.55 annually. Currently, the DPSC houses 50% of state offenders at the local level and 50% at the state level.

REVENUE EXPLANATION

Proposed law will likely result in an indeterminable increase in self-generated revenue as a result of offenders being released into parole supervision. For each offender that is released to parole at an earlier date, the DPSC could collect up to \$63 per month from each offender under parole supervision. It should be noted that the maximum amount paid per month is \$63 and the offender's ability and the amount required to pay is determined by the committee on parole.
