**EXPENDITURE EXPLANATION**

There is no anticipated direct material effect on governmental expenditures as a result of this measure. The proposed legislation requires state coroners to release the name, age, preliminary diagnosis and manner of death of a deceased minor upon request from the Department of Children and Family Services (DCFS). With that information, DCFS will be able to investigate any reports of child abuse and/neglect. If the final autopsy report is required, DCFS will continue to reimburse state coroners according to the Uniform Fee Schedule for public records. Information provided by the LA State Coroners Association indicates that providing the required information under this measure can be accomplished with existing resources, which is anticipated to be minimal.

**REVENUE EXPLANATION**

There is no anticipated direct material effect on governmental revenues as a result of this measure.
