

RÉSUMÉ DIGEST

HCR 113

2017 Regular Session

Ivey

Urges and requests the Dept. of Wildlife and Fisheries to not move forward with implementation of the red snapper exempted fishing permit application that has been submitted to the National Marine Fisheries Service in the National Oceanic and Atmospheric Administration but to aggressively pursue the opportunity to gain approval for state management of the recreational red snapper fishery in the state and federal waters off the La. coast in a manner that enables all fishermen, not a select few, to enjoy the bounty of fish available to anglers in those waters.
