 (Constitutional Amendment) Provides for changes in the expenditure limit calculation (Item #12)

Present Constitution requires an expenditure limit for the ensuing fiscal year to be the limit for the current fiscal year multiplied by a positive growth factor. The growth factor is defined as the average annual percentage rate of change of personal income for Louisiana for the three calendar years prior to the fiscal year for which the limit is calculated. The limit for any fiscal year may be changed by a two-thirds vote of the legislature.

Proposed Constitution requires an expenditure limit for the ensuing fiscal year to be the amount appropriated from the state general fund and dedicated funds for the current fiscal year multiplied by a positive growth factor. The legislature shall establish a procedure by law to determine the growth factor, which shall not exceed 6%. That law may be changed only by a specific legislative instrument requiring a favorable vote of two-thirds vote of the elected members of each house of the legislature.
