HB 204 Original

2018 Regular Session

Jackson

Abstract: Exempts a levee district that did not receive any state general fund money in a fiscal year from rules or determinations of the State Civil Service Commission regarding the amount of compensation of its classified employees or affecting the total number of classified employees employed by the levee district during that fiscal year.

Present constitution (Art. X, §10) vests state and city civil service commissions with broad and general rulemaking and subpoena powers for the administration and regulation of the classified service, including rules regulating compensation and disbursements to employees, and with authority to adopt a uniform pay and classification plan for classified employees.

Proposed constitutional amendment provides that if a levee district receives no appropriation from the state general fund for a fiscal year, the levee district shall not be subject to any rule or determination of the State Civil Service Commission regarding the amount of compensation of its classified employees or any rule or determination of the State Civil Service Commission affecting the total number of classified employees employed by the levee district during that fiscal year.

Provides for submission of the proposed amendment to the voters at the statewide election to be held November 6, 2018.

(Adds Const. Art. X, §10(D))
