HB 352 Original

2018 Regular Session

Shadoin

Abstract: Requires vapor recovery systems on motor fuel dispensing equipment.

Present law requires the secretary of the Dept. of Environmental Quality to control the air resources of the state.

Proposed law requires the secretary to adopt and promulgate rules and regulations requiring service stations dispensing or selling motor vehicle fuel in this state to equip fuel pumps with a certified vapor recovery system, commonly known as a type II vapor recovery system.

Proposed law further requires such rules and regulations to provide for the classifications of service stations, applications, training of personnel, testing, labeling, and recordkeeping.
